The Burbank

Earliest Tomato in the World

I am pleased to offer this season a **New Tomato** which is one of Luther Burbank's latest creations. This is what he says of it—"It is by far the **Earliest** and **Smoothest**, and is such a compact grower that it may be planted from one-third to one-fourth closer each way, thus making it also the **Most Productive Tomato** in the **World**. The fruit is bright crimson-red, thick, solid, heavy, medium to large in size, of superior quality and is a continuous bearer. The Burbank has one other unique and most remarkable quality which will be appreciated by those who like fresh sliced tomatoes for the table, that the skin peels more freely than any other from the rich firm flesh." This **New Tomato** is so good that I do not want one of my customers to fail to grow it this year.

Pkt., 10c; 3 pkts., 25c.

F.B. MILLS SEED GROWER ROSE HILL N.Y.

VIEWS OF MILLS' TRIAL GARDENS WHERE ALL OF MILLS' FAMOUS SEEDS ARE TESTED.

A FEW PERSONAL WORDS

Again I am placing in the hands of my friends both new and old my annual **SEED BOOK**, and wish to announce that in my many years of experience I have never been better equipped in quantity and quality of **SEED STOCK**, and in preparedness to meet the needs of all my customers.

There is nothing haphazard in the selection and production of the seeds listed in my **SEED BOOK** for I make this a constant study. I always have a complete list of the choicest standard varieties, and add new varieties from time to time such as I believe will please my customers. This year I am offering a **NEW TOMATO** (see front cover), one of Mr. Burbank's new creations. This cannot but please all who give it a trial. I call special attention to my **TRIAL GARDENS** (see views, this page), where I **PERSONALLY SUPERINTEND THE TESTING** of all my seeds before placing them in stock. I supply my customers with only such seeds as have been tested and are of high germination. This means **GOOD GARDENS FOR ALL** under proper care.

I wish to remind my customers of the fact that after **CHOICE OF VARIETIES** and **QUALITY OF SEED STOCK** there is still another item to which I give special attention and that is **PRICE**. I know the importance of this in these days when the costs of all commodities are soaring high; and on this account I have held my prices as low as possible for the quality of stock I offer. The cost of production, growing of seeds, labor, paper and materials, has greatly increased during the past year, but I have kept my prices the same as last season except in the cases of a few varieties. Being located as I am right on one of my **Seed Farms**, with no city expenses or rents to pay, makes a saving which enables me to sell my seeds at the lowest possible prices.

I appreciate so large a patronage and wish to thank my customers for the many orders they have sent me in the past. I shall strive to merit a continuance of this confidence and supply always with the "best there is."

I am expecting an unusually large demand for seeds this season, and would advise ordering as early as possible. **34 YEARS IN THE BUSINESS.**

B. B. Mills

ORDERING MADE EASY

HOW TO ORDER—It is very easy for anyone to order **Seeds** from me. In making out an order always write **Name, Post-Office, R. F. D. and Box, County and State**, the first thing you do, and then write the varieties you want, quantity of each and carry out the prices after each one and enclose the total amount in any convenient form of remittance and send it to me by mail and I will do the rest. **Be sure to use my Order Sheet** if you have it.

FREE BY MAIL—I send **Seeds** postpaid by mail at the postpaid prices named in this **Seed Book**, except where there are special quotations for the seeds to be sent by **Express**, customers to pay the express charges. This brings my seeds to the door of my customers without any trouble and expense.

CANADA AND FOREIGN ORDERS—Must include 20 per cent of the order extra for the additional postage and packing required.

I GUARANTEE that every package I send out shall reach its destination in good condition, and that everything shall be received as ordered, and if not, I must be notified at once. If a package is lost, or any of its contents injured on the way, I will refill again.

FORWARD MONEY with the order, and at my risk, when sent by **Post-Office Money Order** on **Rose Hill, N. Y.**; bills or coin, by **Registered Letter**; **Bank Draft** or **Express Company's Money Order**. **Post-Office Money Orders** are the cheapest and the safest method for remitting. I earnestly request my patrons to remit by **Money Order** if possible.

STAMPS AND COIN—Do not send postage stamps in payment for goods if it can be avoided. The loss is great on account of being obliged to find buyers. **Coin**, when sent in letters, should be sewed or pasted up in strong paper or cloth, to prevent its breaking through the envelope. **I will not be responsible for coin sent me except by Registered Letter, nor for Stamps.**

MY GUARANTEE—I sell tested seeds—you get the best that money can buy. Should failure result from any fault of the seed, you can have the order refilled. **Seeds** are subject to climatic and other conditions over which I have no control, after once being placed in the ground; therefore, I can give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds I send out and I will not be in any way responsible for the crop, and every order for articles named in this **Seed Book** will be executed on these conditions only. If the purchaser does not accept the same on these terms, they are at once to be returned.

Leaflets on Culture Free with Order

I have prepared several **Leaflets on Culture**, as listed below, which I will mail free with your order if you mention which ones you wish when sending in the order.

HOW TO GROW BEANS. **MELON CULTURE.**
HOW TO GROW BEETS. **TOMATO CULTURE.**
HOW TO GROW CABBAGE AND CAULIFLOWER. **INSECT PESTS IN THE GARDEN.**
HOW TO GROW ONIONS FROM SEED.

Our interests are really mutual—Your success is my success—I want to help you all I can for I want you to have the finest garden in your neighborhood by planting **Mills' Seeds**.

Grow Mills Tested Seeds

If you want high grade tested vegetable and flower seeds, I can supply you. Read every page of this seed book

Beans

I offer the best varieties of Beans for the home garden and for field crops, every garden should have plenty of the Wax Green Pod and Limas. My 1200 to 1 Bean has made a wonderful record and you should grow it for a field crop. All prices are by mail, postpaid. (Leaflet "HOW TO GROW BEANS" Free with every order if asked for.)

Giant Stringless Green Pod

Just the Bean to Plant in Home Gardens Where Only a Few Are Grown

It is claimed to be absolutely stringless and the best stringless bean. The pods are ready for market several days earlier than the best strain of Red Valentine, making it very valuable. The rich, green pods, from 5½ to 6 inches long, are so round that the back is creased, and when full grown are of fine flavor and very tender. It is very valuable for market gardeners and canning establishments.

Pkt., 10c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 25c; 1b., 45c; postpaid.

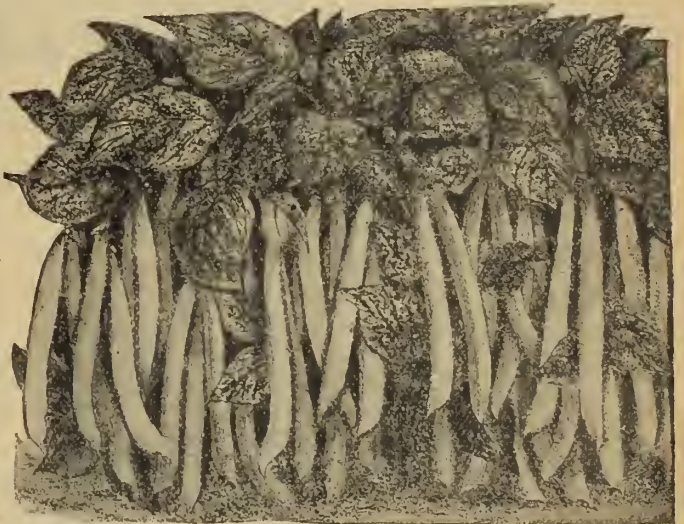

Bountiful Bush

This is a prolific and continuous bearer, very tender and of excellent flavor. The plant is very handsome, thrifty in growth and it is extremely early. The rich green pods are of enormous size, broad, thick, very long, uniform in shape, meaty and of high quality, absolutely stringless and free from any tough lining, not only when young, but this tender quality is retained to maturity.

Pkt., 10c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 25c; 1b., 45c.

Giant Stringless Green Pod Bean

Sure Crop Wax

Very Best for Early Planting

This is a very early handsome wax bean producing an abundance of crisp, tender, stringless pods. The handsome yellow pods are 5 to 6 inches long, oval in shape and of excellent quality and flavor. It is as nearly rust-proof as any good wax podded bean can be. The plant grows very vigorous and is enormously productive being the hardiest of the wax sorts, and you can always count on a sure crop, hence its name. This is the variety you should plant for very early wax beans in your garden.

Pkt., 10c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 25c; 1b., 45c.

Mills Rust-Proof Wax

One of the best rust-proof wax beans in cultivation and has proved the nearest to perfection of any variety. Very early, grow upright and robust, holding their pods up well from the ground, which are always of a beautiful color; unsurpassed in quality; pods golden yellow, about 5½ inches long.

Pkt., 10c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 25c; 1b., 45c.

Mills Rust-Proof Wax Bean

Novelties

Refer to pages 26 and 27 and you will find several fine novelties, one of the best being *Mills Enormous Pea*—you must try it.

On the front cover you will find a great *Early Tomato*, the "*Burbank*." It is a wonder and you must try it.

Order early before the rush. There is a big demand for my tested seeds, for the prices are right.

Make your garden produce more this year than ever before.

Bountiful Bush Bean

Dwarf Bush Lima Bean

Two Bush Lima Beans

I offer two Bush Limas, both excellent sorts. The dwarf bush lima produces medium sized plant and bean, while the mammoth bush lima produces much larger pods and beans, and is preferred by many.

Dwarf Bush Lima

The plant grows erect, branching freely and bears enormous crops and the beans are ready for use as early as any other. The pods measure 5 to 6 inches in length, containing 4 to 5 beans each. The green beans, even when of full size, are tender, juicy and sweet in flavor when cooked. It is a grand Bush Lima Bean, but not so large as Mammoth.

Pkt., 10c; 3 pkts., 20c; 6 pkts., 35c; ½ lb., 30c; 1 lb., 50c; postpaid.

Mammoth Bush Lima

Enormous Pods, Excellent Flavor, Extremely Prolific

This Mammoth Bush Lima grows in dwarf or bush form and produces beans as large as Pole Limas, ready to use ten days to two weeks earlier. The plant grows 18 to 20 inches high and has an erect branching stem. It is without doubt one of the most desirable lima beans ever introduced. The luscious flavor of the beans and their size are equal in every way to the climbing lima beans.

This mammoth bush lima is an enormous yielder and every garden should have some of these limas. Pkt., 10c; 3 pkts., 25c; 6 pkts., 40c.

Coffee Beans

The coffee or Soja Bean is a great yielder and is easily grown in any ordinary garden soil being very prolific. The plant grows very strong, producing a great abundance of pods containing the coffee beans. It is claimed by many that an excellent drink very nearly equal to good Java coffee can be made. Many people preferring it to genuine Postum Cereal. Be sure to try this wonderful Bean this year. It can be planted in May and cared for the same as beans.

Pkt., 10c; 3 pkts., 25c; 6 pkts., 40c.

Coffee Beans

Big Yield in Canada

Mr. N. W. Pinch, of Ontario, Canada, writes—

I got some of your 1200 to 1 Beans last year, and was very much pleased with them. Out of 50 good plants they averaged between 1400 and 1500 beans to each bean. I took the trouble in counting them. They are the best bean I ever saw.

Elmer Sherwood, Middlesex County, Mass., writes: Last spring I ordered three packets of your 1200 to 1 beans. I gave one packet to a neighbor and planted the other two. To tell the truth no one in this neighborhood had so many beans on so few plants. I counted 1260 beans on one plant.

Mr. J. J. DeLong, Schenectady Co., N.Y., writes: In regard to the two packets Tomato and Cucumber seeds I got from you last spring will say they are the best I ever grew, tomatoes average about 1½ pounds each and we got about 6 bushels, and we got from 750 to 1000 cucumbers.

Golden Cluster Wax Pole Bean

Golden Cluster Wax Pole Bean

As shown by the illustration Golden Cluster produces long, stringless, golden colored, waxy pods 7 to 8 inches long in clusters of 4 to 6. It is medium early and of excellent quality. The vines grow large and vigorous and if the pods are kept picked off and not permitted to ripen the vines will bear continuously until killed by frost. It is a splendid variety for the home garden and for market.

Pkt., 10c; 3 pkts., 25c; 6 pkts., 40c; ½ lb., 50c.

Mr. C. F. Rhode, Schuylkill Co., Pa., writes: I received fine results from the seeds I ordered from you in the spring. I took beets from my garden on the 4th of July, the size of an ordinary teacup; the World Beater Cabbage sure is some fine sort, gets as solid as can be. Shall look forward for your 1920 Seed Book.

Prolific Tree Bean

Giant Podded Pole Lima

This variety produces enormous sized pod in abundance on strong vines. Five and some more of these big fat beans are borne in pods which grow from 8 to 9 inches. Pods are produced in clusters. It is a good Lima.

Pkt., 10c; 3 pkts., 25c; 6 pkts., 40c; ½ lb., 30c; 1 lb., postpaid.

Giant Podded Pole Lima

Prolific Tree Bean

A Bean largely grown for market one of the best to grow for a field maturing in about 90 days from planting. Plants grow from 1½ to 2 feet high branch freely, producing a large yield of pure white beans of best quality, trifle larger than the Navy Pea and a much heavier yielder.

Pkt., 10c; 3 pkts., 20c; 6 pkts., ½ lb., 25c; 1 lb., 40c.

1200 to 1 Bean

This bean has made a wonderful record everywhere, and those who have grown it admit that it is the most profitable variety to grow for shelled beans as a market crop. It will produce more beans from the amount of ground planted and the quantity used for seed than any other variety of white beans I know of.

It should be planted in rows 28 to 30 inches apart and from 10 to 15 inches apart in the row, according to the richness of the soil, only one bean in a hill. The plants grow strong and erect about 2 feet high, branching freely, producing great quantities of pods that are well filled with nearly round, medium sized, pure white beans of best quality. They ripen very evenly in from 78 to 90 days after planting according to the season, permitting harvesting all at one time, which is very important in bean raising.

More than 1200 beans have been produced on a single plant, and this is why it was named 1200 to 1. This name does not indicate or mean that all plants will produce such large yields for the season, soil, time of planting, care, etc., have everything to do with growing beans, but I am fully convinced that it will be greatly prized by all who grow it.

Photo Henry Barnard holding one plant White Navy Bean in right hand and one plant 1200 to 1 Bean in left hand. Both had equal care—note the difference.

Mr. Henry Barnard of Holt County, Mo., writes: I inclose you photograph showing results of my beans this season. The bean vine in my right hand is the ordinary navy bean plant and the vine in my left hand is your 1200 to 1 plant. Your 1200 to 1 Beans are the greatest yielders of any beans I ever grew. It is almost unbelievable the great quantity of beans a single plant will produce.

J. P. Gray, District of Columbia, writes: For your information let me tell you what your 1200 to 1 Beans did for me. I got 7 pkts. last spring, about 350 beans, planted them in two rows about 200 feet long and picked 21 quarts of dried beans, besides about a peck of pods containing 8 beans each. Your catalog illustrations are far too modest.

Mr. Charles H. Fuller, Washington County, Vt., writes: When I wrote you a short time ago, acknowledging my satisfaction with the outcome of the seeds I bought of you last year, and sending order for seeds for the coming season, I forgot to tell you of my success with the "1200 to 1" Bean, and so I am inclosing a copy of a record I made. From this you will see that I tried out these beans in all kinds of soil. I did not put much labor or attention to all I planted, but with a few hills I did, and got what I consider a big crop. If I had planted all my 900 beans in my best soil, and then given them one-half the care I gave to other vegetable production, I certainly would have gotten a tremendous yield of beans.

Record of production from Mills' "1200 to 1" Seed Beans, in 1919, planted by Charles H. Fuller at Sunny Slope Garden, Washington County, Vermont.

Soil Condition	Planted	Picked from One Vine	Averaged [to the Pod	Total Yield of Beans

Many had 7 Beans

On an acreage of about 2250 square feet, or about one-twentieth of an acre, I planted 900 Beans, which cost me \$1.00. The fall season was very wet from continual rains, and I had much difficulty in drying out my vines, so that a great many pods molded and I lost quite a percentage of my crop of beans, but notwithstanding this handicap, I had four bushels of beans, which is a yield of 80 bushels to the acre, 4800 pounds, which at market price would return a net amount of \$528.00.

Photo of 1200 to 1 Bean Plant

These letters are just fair samples of the many I have received. One of the strong points is the small quantity of seed required to plant an acre, for only one bean should be planted in a hill to get the best results, it requiring only about 9 pounds to plant an acre if planted in rows 30 inches apart by 12 inches apart in the row.

I have a very choice supply of seed this season, and can make my customers the following prices:

Pkt., 8c; 3 pkts., 15c; 6 pkts., 25c; 15 pkts., 50c (over 60 beans to each packet); one-half pound, 30c; one pound 50c; postpaid.

Mangel Wurzelz Grown for Stock Feeding

This is the most popular long red mangel; sometimes called "Giant" or "Jumbo." It is the largest variety I know of. Grows about two-thirds out of the ground and frequently weighs 30 lbs. each. It has produced over 60 tons to the acre. It is not coarse grained, even when attaining enormous weight. It is one of the very best for cattle and sheep feeding during winter. The illustration, carefully engraved from specimen, will give a good idea of the size and shape. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 8c; ¼ lb., 25c; ½ lb., 40c; 1 lb., 75c; 5 lbs. (enough for one acre), \$3.25.

Mills
Mammoth
Prize
Long Red
Mangel

Golden Tankard

This is the most desirable yellow Mangel; for it contains more sugar and less water than any other variety of this color. It is highly prized by the dairy farmers. It matures quite early and under good cultivation will yield 40 to 50 tons per acre. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 8c; ¼ lb., 25c; ½ lb., 40c; 1 lb., 75c; 5 lbs. (enough for one acre), \$3.00.

Giant Half Sugar

This Mangel is white, with a rose top; flesh white. It is one of the most profitable for stock feeding on account of wonderful cropping quality and for the superior amount of its sugar. It is as easily grown and harvested as any and outyields the sugar beets. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 8c; ¼ lb., 20c; ½ lb., 30c; 1 lb., 50c; 5 lbs. (enough for one acre), \$2.25.

TABLE BEETS

Every garden should produce sufficient for Summer use and Winter storage. I have an extra choice supply of seeds. (LEAFLET, "HOW TO GROW BEETS" FREE WITH ORDER IF ASKED FOR)

Mills' Extra Early Blood Turnip Beet

(See Back Cover for illustration in colors and description. It's My Great Early Blood Beet. Pkt., 5c; 3 Pkts., 12c; 6 Pkts., 20c; Oz., 15c; ¼ lb., 50c.)

MARKET GARDENER'S BEET

MARKET GARDENER'S—This grows very rapidly and continues to grow for a long time, making a heavy root for autumn or winter use. The quality is good at all stages of growth. It is an excellent keeper all winter; a very dark red in color throughout and the very best for table use. The shape is symmetrical; small top and very handsome in appearance.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 35c.

EDMAND'S EXTRA EARLY BLOOD TURNIP—This is a splendid variety; has a short top, round in form, smooth and of good marketable size for gardeners. The skin and flesh are a deep blood red, very sweet and an all-around garden beet. It is largely planted in private gardens.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 35c.

Improved Long Red

This is the best long red beet on the market, being unequalled for the table or live stock. It is popular everywhere. Tops are large; necks small; roots, stems and vines red; leaves green. Roots are large; tapering at both ends, growing nearly even with the surface. Flesh and skin dark red, tender, sweet, and remains so when kept until spring.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 35c; postpaid.

Improved Long Red

Swiss Chard or Spinach Beet

Swiss Chard or Spinach Beet

Also called Silver Beet and Sea Kale Beet. The leaves are used for greens the same as Spinach or beet tops, they are equal in quality and easier to prepare than Spinach, and far superior to beets. Nothing in the garden requires less care, and yet it yields a constant crop from July to winter and can be used all summer when Spinach is not available.

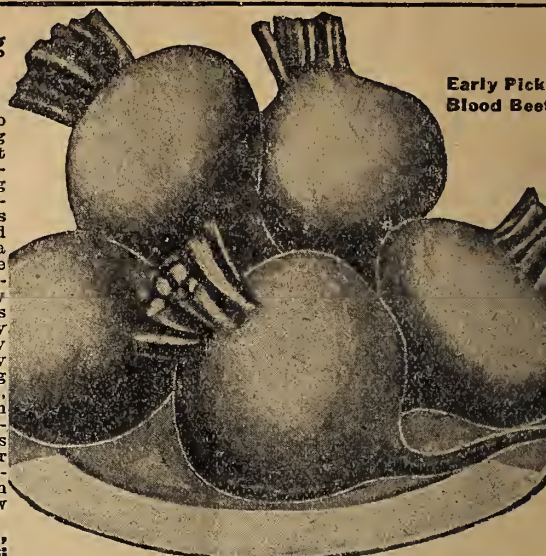

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c; ¼ lb., 50c.

Early Pickling Blood Beet

Earliest of All

These beets are early, being among the first ready for use. Excellent for pickling. Very easy to mature. The color is a rich dark blood red. They have a small top, fine grained and always grow very smooth, the beets being of a very even size. They are good for early planting for spring and summer use, or can be stored in the cellar for winter use, always being very tender and of good quality. Every garden should have a few of these beets.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c; ¼ lb., 50c.

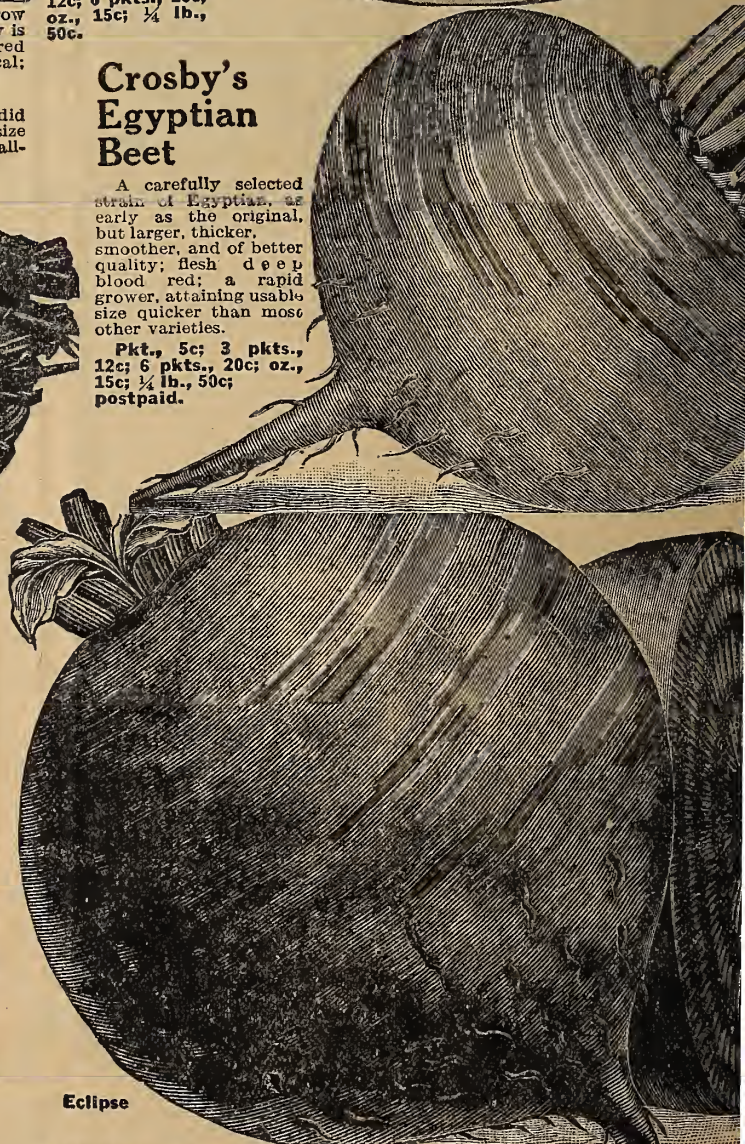

Early Pickling Blood Beet

Crosby's Egyptian Beet

A carefully selected strain of Egyptian, as early as the original, but larger, thicker, smoother, and of better quality; flesh deep blood red; a rapid grower, attaining usable size quicker than most other varieties.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c; ¼ lb., 50c; postpaid.

Eclipse

ECLIPSE—This beet is quite early and is superior to many other table beets. I have taken particular pains in selecting this strain for many years, and can furnish seed will produce beets with a very small top, smooth, fine grain, tender, and of a hand bright red color. I believe this is one of the best known beets and has given satisfaction to all who have grown it.

Selected Stock. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 35c.

MIXED BEETS—Special Mixture, all varieties giving supply entire season. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 50c.

CARROTS

Ox-Heart or Guerande

Specimens have been raised measuring over 7 inches in diameter. The quality is extra good and I can recommend it for home use. It can be pulled where other sorts require digging.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 35c.

See Novelties
Pages 26, 27

Ox-Heart or Guerande

GIANT SHORT WHITE—Very productive; grows well out of the ground, making it very easy to harvest. Roots are short and smooth, flesh rich, white, solid, crisp and of excellent flavor. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 35c.

Giant Short White

MASTODON—This is a very large and productive white Carrot. Flesh is pure white, crisp and solid, very sweet in flavor. Roots of large size, frequently measuring 15 to 18 inches in length. Yielding 20 to 25 tons per acre. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 35c.

MILLS CHAMPION YELLOW

It is of a beautiful yellow color and the best for dairymen. It is not only valuable as a Carrot for stock, but if it is sown at the rate of from twelve to fifteen pounds of seed to the acre, it will be an excellent sort for table use. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 35c.

GOLDEN BEAUTY

—This is a heavy cropper and suitable for both table and stock. It is a half-long stump-rooted sort; grows a smooth, uniform, handsome root, free from core, sweet and tender, never becomes stringy. It is very desirable for any private garden on account of its immense yielding qualities. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 35c.

Brussels Sprouts

Orange

Danvers Carrots

ORANGE DANVERS—The best variety and of the very best quality, well adapted to all soils and sections, and is an enormous yielder. It is medium length, tapering at the point. Roots smooth and of a dark, rich orange color.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 35c.

Golden Beauty
Carrots

Mills
Champion
Yellow
Carrot

IMPROVED LONG ORANGE

The roots are of large size, smooth, fine grained and of excellent quality for table use. The color is a deep orange, as indicated by its name. Will produce enormous crops and is well

adapted to light soil. It is also well suited to dairymen on account of its heavy yields.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 35c.

Grow Mills Enormous Pea—It's a Beauty—See Page 26

Asparagus

PALMETTO—This is the finest and best variety grown; remarkably tender and rich when cooked; free from any tough or woody fibre.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 30c.

Endive

GREEN CURLED—This is a very hardy variety; has dark green leaves; always blanch white and crisp. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

BROAD-LEAVED BATAVIAN—Produces large heads of broad leaves, used for flavoring soups, and if blanched, the leaves make a good salad. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Dandelion

IMPROVED LARGE LEAVED—Very early; if sown in May will be fit to cut in July. A very valuable variety. Pkt., 10c; 3 pkts., 20c; ¼ oz., 35c; oz., 60c.

Cress

FINE CURLED—(Pepper Grass)—Agreeable taste to salad. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Mustard

BLACK—Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 25c.

WHITE—Very best, mild and is exceedingly tender. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 25c.

Brussels Sprouts

PERFECTION—Grows a stem 2 feet high and on this produces sprouts 2 inches in diameter, resembling miniature cabbage. Very tender and of good flavor. This is the best variety known, and is very popular. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 30c.

Kohl-Rabi or Turnip-Rooted Cabbage

EARLY PURPLE VIENNA

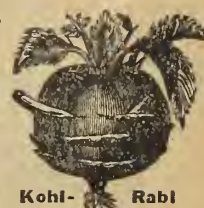

—It is largely grown for table use.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 25c.

EARLY WHITE VIENNA

—Best for table use.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 25c.

Kohl-Rabi

Collards

TRUE GEORGIA—Known as Cole or Colewort; originated in the South. Grown South for greens. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Okra or Gumbo, White Velvet

Never prickly and always round and smooth, while other varieties are either ridged or square edged. Outfields other varieties.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Asparagus

CABBAGE

I OFFER A GOOD
SELECTION OF VARIETIES

All Head
Early

All Head Early This is a famous Flat Head Summer Cabbage and has proved valuable everywhere and is a money maker. The deep flat heads are remarkably solid and the most uniform in size and shape. The heads grow so compact that fully a thousand more heads can be obtained to the acre than any other cabbage. It is suitable for growing in the spring and early summer, or if sown in July, for use as a winter sort. **Selected Stock—Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz. 25c.**

Mammoth Rock Red Largest Red Cabbage known; heads of a deep red inside and out and almost as solid as a rock. **Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 40c.**

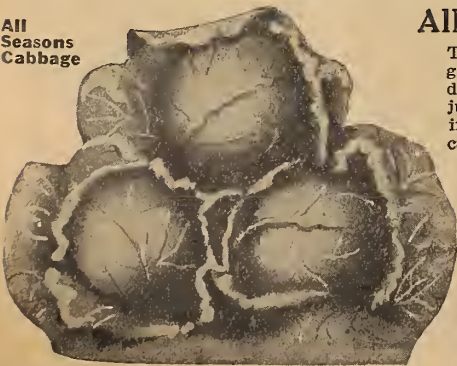

Copenhagen Market

Copenhagen Market This early Globe-Shaped Cabbage attracts attention wherever grown. The heads are remarkably solid, with few loose leaves, of fine quality with small cores, and have an average weight of about 10 lbs. each. This Cabbage is unrivaled as large heading early cabbage. If you grow Copenhagen Market you will have one of the finest early cabbages.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 40c.

Early Spring This is a first class, extra early, round, flat head Cabbage. The heads are always uniform, remarkably solid with but few leaves. The stem is short, which makes it very valuable for truckers as well as private gardeners. **Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c.**

All
Seasons
Cabbage

All Seasons

This Cabbage is good early, medium or late, just as the name indicates and can be planted, at all seasons producing fine large heads not liable to burst after heading. It is a good cabbage everywhere.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz. 25c.

60-Day Cabbage

MY 60-DAY CABBAGE is a great variety and should be planted in every garden in the country. I was very fortunate in securing this strain of Cabbage, which is even earlier than my famous "Earliest Flat Head." 60-Day is just what its name implies and is the quickest growing cabbage, and is sure to please everyone who plants it. The heads are fair size, very solid and just the thing for market gardeners, truckers or home gardens; maturing so early will readily sell in any market. The illustration well shows the Cabbage, and almost every plant is sure to form a perfect head. They can be planted close together and will yield a large crop and I am sure that my customers will appreciate it. **Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 40c.**

Early Jersey Wakefield I offer the finest strain of Jersey Wakefield to be had. It is a well known variety, producing large heads almost as early as any of the other sorts. You should never buy cheap seed of this variety.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 40c.

Early Winningstadt Forms large cone-shaped heads of excellent quality, and is nearly always certain to head, as it will grow solid heads in seasons when some sorts fail to produce anything. **Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c.**

Early Jersey
Wakefield

Mills Earliest Flat Head Cabbage

Produces Fine, Good-Sized, Solid Heads, Fit for Market 70 to 80 Days from Sowing of Seed

This is just the Cabbage for your garden, producing fine, solid, good-sized heads and to use in 70 to 80 days from sowing the seed. Its shape and habits of growth are shown by illustration, the deep flat heads being remarkably solid and the most uniform in shape and of any variety. It is a beautiful cabbage in appearance and on account of its rapid growth excels others for tenderness. I am particularly anxious to have every one of my customers who grow **Earliest Flat Head** this year.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c., oz., 25c.

Giant Solid Head Cabbage

Great Winter Keeper

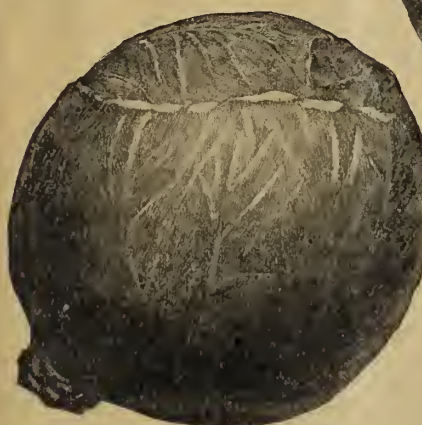

This is a grand late Cabbage and all who have grown it are more than pleased. It is a late variety, and the heads are as solid and hard as Ball Head. Grows very compact, as shown by the shape in the illustration. It certainly is a handsome cabbage, on account of the heads being so round and deep, and it is not liable to crack. As to quality there is no better variety, there being no coarse ribs or stems to be found in the head. A very vigorous grower and will stand drouth to a remarkable degree. The heads grow so even and solid that they will average 10 to 12 lbs. each through a whole crop. It is highly recommended for its keeping qualities and is an excellent sort to grow for storing or spring markets. If you grow only one variety of cabbage this season, let it be this one.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 40c.

Mills Giant Late Flat Dutch

It forms large, solid heads, uniform in size and color, handsome in appearance. It has a very short stem and at the same time is a compact grower. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 40c.

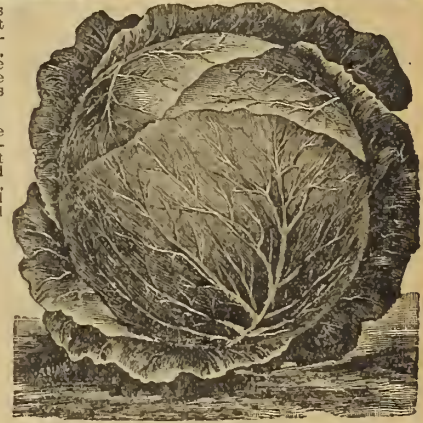

Giant Solid Head Cabbage

Danish Ball Head Cabbage

Danish Ball Head This Cabbage comes from Denmark and it is prized so highly that the Danes grow it almost exclusively for Winter Cabbage. The heads are hard, round, of good marketable size, fine-grained and good keepers, are not so large as the Late Flat Dutch, but are even harder and more solid. The true Danish Ball Head has become wonderfully popular for winter market and I believe that in many sections where cabbage is largely grown, at least four-fifths of all Winter Cabbage grown is Danish Ball Head. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 40c.

Surehead Cabbage While the Giant Late Flat Dutch is a good one and always produces excellent crop, the Surehead comes close to it and produces large, solid, firm heads, even in the most unfavorable season. Few other varieties can approach it in fine quality and uniform reliability in forming solid heads of good size. It produces large, round, flattened heads and is remarkable for its certainty to head. It is all head and always sure to head, even where other varieties fail. Single heads have weighed over 60 pounds. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 40c.

Surehead Cabbage

The Great World Beater Cabbage

World Beater Cabbage

The Giant of All Cabbages
Try It

This is the greatest of main crop Cabbages, enormous in size, one of the best keepers, and often produces heads from 3 to 3½ feet in circumference, weighing from 30 to 50 lbs. each. The heads are fine grained and it is considered the king of all Winter Cabbages. Its smaller outer leaves enables it to be planted closer than any other late sort and it is always sure to produce more per acre than any other variety from the fact that the leaves are smaller and grow closer to the head. This Cabbage has stood all kinds of tests and met competition everywhere. Try it in your garden this year.

Price, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 40c.

SELECTED CELERY Giant White Solid

SWEET AND
NUTTY IN
FLAVOR

This is a splendid winter celery, keeps well, flavor is excellent, sweet and nutty. Stalks are very brittle, almost without any fibre when blanched.

The stalks grow very strong, 20 to 30 inches high, of a beautiful ivory white in color. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c. oz., 40c.

Giant Pascal

The stalks are large and stringless, crisp and brittle; heart a rich bright yellow even after blanching. An excellent variety for shipping; does not rust or rot; grows more satisfactorily in the South than any other kind. It is a fine keeper and extra good shipper, retaining its color and appearance as long as any other variety in existence. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c.

Dwarf Golden Heart

This variety is of dwarf habit and when blanched the heart, which is very large, is of a pure golden yellow. It is very striking and showy; keeps well during winter. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Mills Celery Mixture

This mixture contains a splendid selection of all the leading varieties and most valuable in cultivation, and will certainly give the greatest possible satisfaction. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c.

Golden Self-Blanching Celery

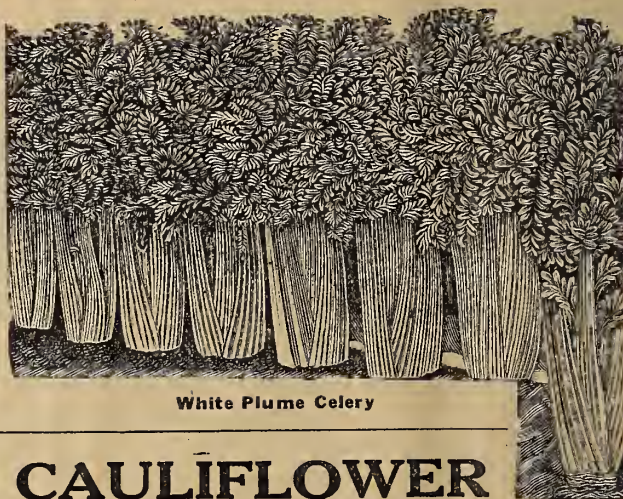

Golden Self-Blanching

(GILT-EDGE STRAIN)

This is my Gilt-Edge Strain and I believe it is the best Celery in cultivation, and is also the most popular. It is always in demand where good celery is appreciated. Is half dwarf variety, growing about 18 to 20 inches high, with thick, heavily ribbed stalks which blanch easily to a clear waxen yellow. Grows stocky, heavy, perfectly solid; is delicate flavor, and is a good keeper. The heart is very large and solid. Stalks are crisp and of the very best quality. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 40c.

Giant White Solid

White Plume Celery

White Plume

This is a known variety, popular when grown. It is the best and most blanching. They grow rapidly and account of its culture every atourgardener grow this variety. Seeds sown in transplanted in will be ready in October when hanking up. Many of this grand is a very choiced strain and produce fine. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c.

MILLS CHOICE CAULIFLOWER

Mills Early Favorite Cauliflower

Mills Early Favorite

It will stand the heat and drouth of any climate the best of all and is the earliest and surest to head. For forcing it is particularly well adapted; as a sort for the family and market garden it is unquestionably the largest as well as the best. Is favorite with market gardeners. Pkt., 5c; 3 pkts., 15c; 6 pkts., 25c; ½ oz., \$1.00.

Dry Weather

This new Cauliflower originated in Denmark. It has been grown in nearly all sections of America and proved to be a drouth resister. It produces a large, solid, pure white head, nearly as early as Mills Early Favorite. It is especially adapted to dry localities and resisting the effects of drouths. It will do well also in moist or wet seasons and make large, handsome heads. Pkt., 5c; 3 pkts., 15c; 6 pkts., 25c; ½ oz., \$1.00.

Dry Weather Cauliflower

EARLY SNOWBALL—This is a well known variety, and considered one of the best in cultivation, and a great favorite throughout the country. It is very early, close growing, compact habit, and well adapted for forcing under glass during the winter and spring.

Pkt., 10c; 3 pkts., 25c; 6 pkts., 40c; ½ oz., \$1.60.

MILLS SELECTED LETTUCE

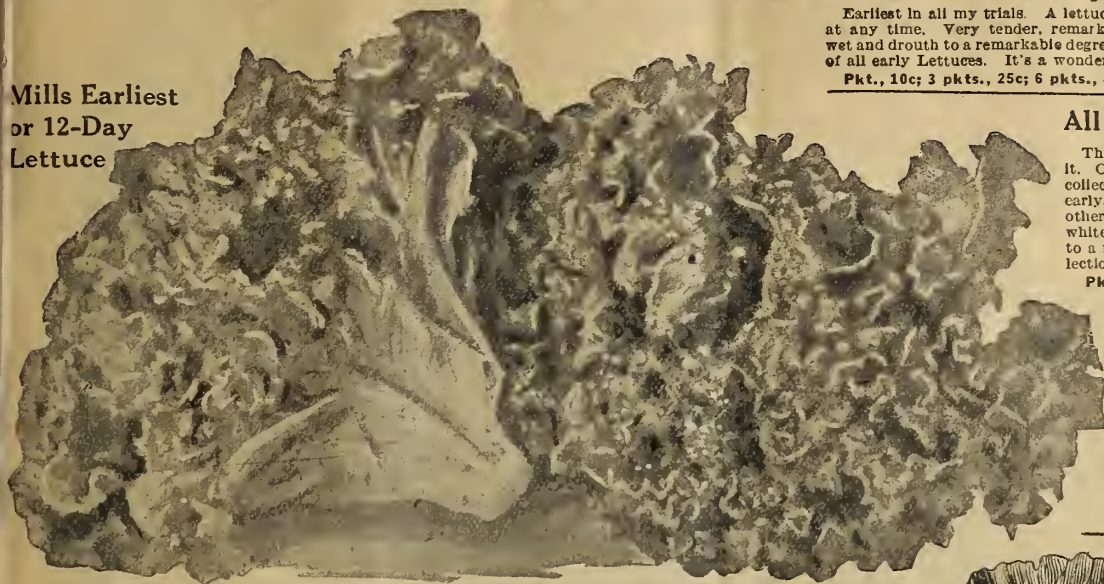

Mills Earliest or 12-Day Lettuce

I CLAIM THIS THE EARLIEST OF ALL

Earliest in all my trials. A lettuce for forcing or for general crop, can be sown at any time. Very tender, remarkably crisp, very best quality. Resists heat, wet and drouth to a remarkable degree. Is slow to run to seed. This is the greatest of all early Lettuces. It's a wonder. My Seed is all tested.

Pkt., 10c; 3 pkts., 25c; 6 pkts., 40c; oz., 30c.

Mills Earliest
or 12-Day
Lettuce

All Seasons Lettuce Collection

This is a wonderful collection and nothing can equal it. Onesowing produces supply for the season. This collection contains all the best varieties, maturing early, medium and late; some curled and crinkled; others produce heads. Colors range from pure white, through delicate shades of green and yellow, to a rich golden. I am sure this Great Lettuce Collection will more than please everybody.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Denver Market

Solid head, a beautiful light green color; good for forcing or open ground.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Golden Ball

The heads are fine golden color. Early and slow to run to seed.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Early
Prize
Head

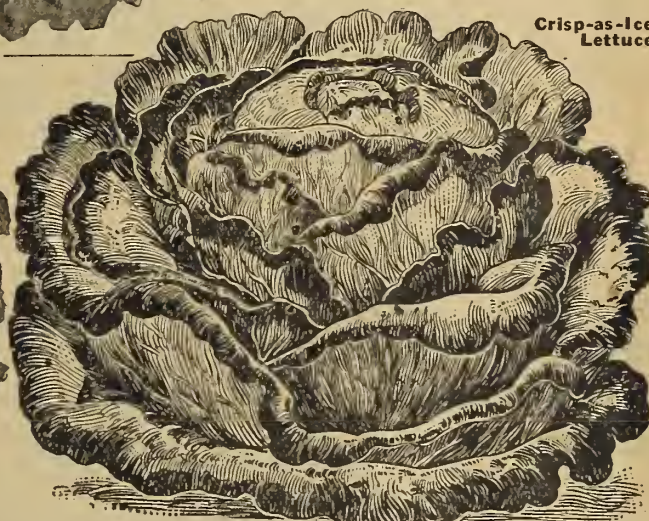

Early Prize Head One of the best head lettuces. Heads form quite early. Is good for market gardeners, as it is very slow to run to seed, and while it is a comparatively early kind, yet rather late in the season it retains its good flavor and does not turn bitter.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Grand Rapids
Lettuce

Grand Rapids A leaf lettuce and stands ahead of all others for winter forcing in the greenhouse. The best in its class for market gardeners, as it will keep longer from wilting than many other varieties. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Crisp-as-Ice
Lettuce

Crisp-as-Ice This is a beautiful lettuce of the cabbage type. The solid heads are of medium size, and the leaves are so tender and brittle as to have suggested the name, Crisp-as-Ice. Head has a rich yellow heart. The leaves are thick and glossy, somewhat curled, green color variegated with bronze. It cannot be overestimated or overpraised for home use in spring or summer or late in the fall. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 25c.

Improved Hanson This is a perfect lettuce for the table. Heads green outside and white within, sweet, crisp and tender, even to the outer leaves. This is becoming a very popular lettuce. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Big Boston This is, without doubt, one of the best large cabbage lettuces on the market, very valuable for the Southern gardener to ship North as it is the first early sort grown and is becoming more popular each season in all parts of the country. It gives satisfaction in whatever way it may be grown, whether for forcing in the greenhouse in the winter months in frames for early spring use or in the open ground for summer and fall use. Its large, compact, tender and crisp head makes it attractive for table use, the leaves being light green, and it always finds a ready market. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c.

Big Boston
Lettuce

Black-
Seeded
Simpson

Leaves almost white; grows large, fine quality; excellent for early planting.

Pkt., 5c; 3 pkts., 10c; 8 pkts., 18c; oz., 12c.

Black-Seeded Simpson Lettuce

Sweet or Sugar Corn

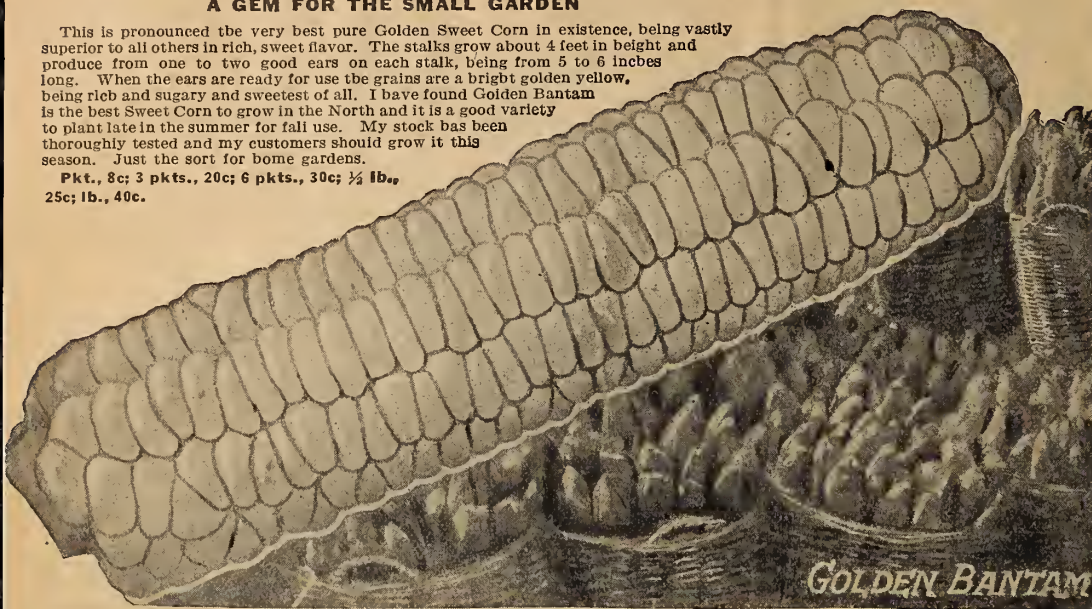

My Sweet Corn Crops the past season have been very good and I offer choice tested seeds

Golden Bantam—One of the Sweetest Corns Grown

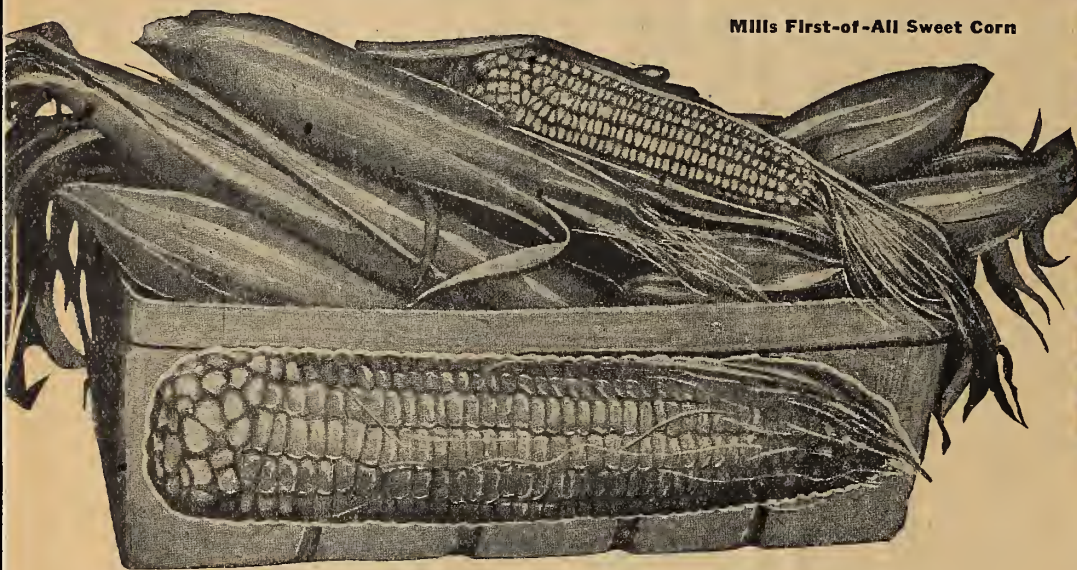

A GEM FOR THE SMALL GARDEN

This is pronounced the very best pure Golden Sweet Corn in existence, being vastly superior to all others in rich, sweet flavor. The stalks grow about 4 feet in height and produce from one to two good ears on each stalk, being from 5 to 6 inches long. When the ears are ready for use the grains are a bright golden yellow, being rich and sugary and sweetest of all. I have found Golden Bantam is the best Sweet Corn to grow in the North and it is a good variety to plant late in the summer for fall use. My stock has been thoroughly tested and my customers should grow it this season. Just the sort for home gardens.

Pkt., 8c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 25c; 1 lb., 40c.

Mills First-of-All Sweet Corn

Mills First of All—Earliest of All Sweet Corn

This is the earliest Sweet Corn that I have been able to offer. It being a few days earlier than all others not only makes it valuable for family use, but extremely valuable for market, where the earliest corn always brings the highest price. It is rather dwarf in growth but superior in quality, tenderness, and sweetness. The photograph shows the form of the ears, which are of medium size and well filled with large grains to the tip of a very small cob. Why not have the earliest Sweet Corn in your neighborhood? If you plant First of All you will have. I have a very nice stock to offer this year, all extra selected.

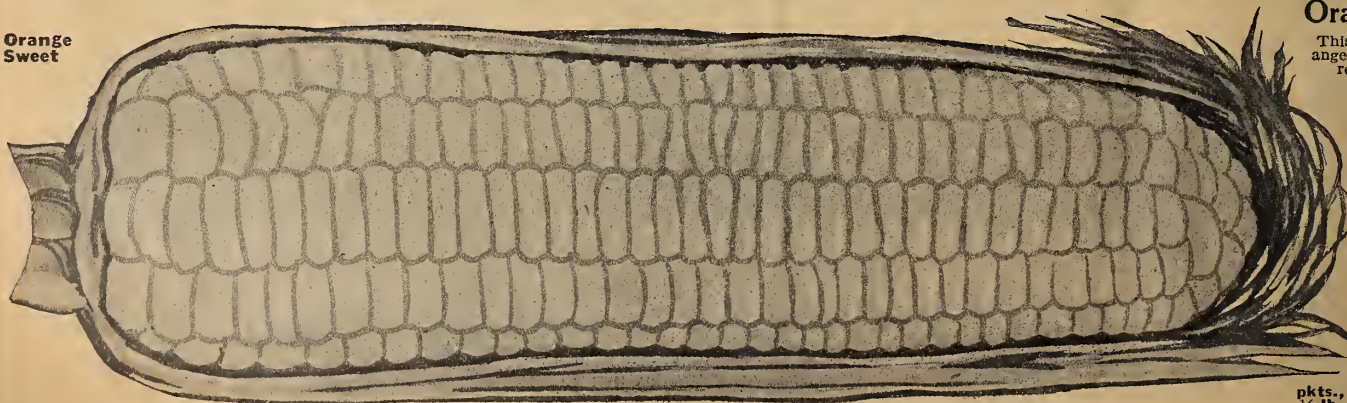

Pkt., 8c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 25c; 1 lb., 40c.

Stowell's Improved Evergreen

This well known variety is largely planted by private families, gardeners and canners. There is no stock of Stowell's Evergreen that can excel my "Improved." It is the very best for main crop.

Pkt. 8c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 20c; 1 lb., 35c; postpaid.

Orange Sweet

White Evergreen

White Evergreen This is one of the most delicious Sweet Corns ever offered. It is a splendid yielder and unsurpassed for market gardening purposes. The ears are pure snow white, large and well filled. It is sweet and most desirable for table use. I recommend the White Evergreen too highly, as it will give the greatest possible satisfaction to grow it. If you want a great Sweet Corn, by all means include the White Evergreen with your order. This illustration gives a good idea of this valuable variety.

Pkt., 8c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 25c; 1 lb., 40c.

Orange Sweet

This is a handsome-colored variety resembling the Golden Bantam. It is strong in producing large ears, well filled, grain sweet and tender. It is a mainstay for the home and the market. It is a good variety for all seasons. It is a good variety for all seasons. It is a good variety for all seasons.

Pkt., 8c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 25c; 1 lb., 40c.

POP CORN

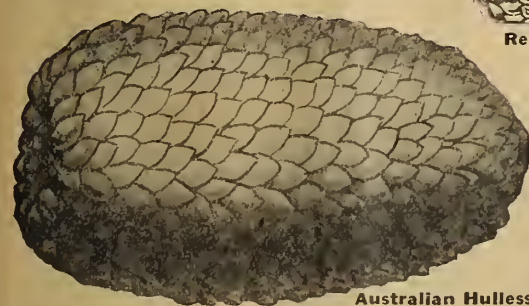

Pop Corn is One of My Specialties
I Offer the Best Varieties Grown

Quick Pop

Quick Pop Pop Corn A very early variety producing from 2 to 4 perfect ears of a beautiful golden yellow color. This Pop Corn is very quick to pop, hence its name, and the kernels expand to a large size when popped. It is a beauty.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

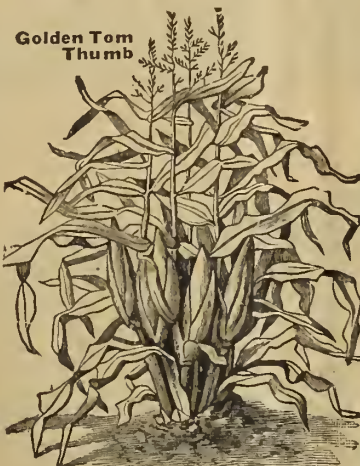

Australian Hulless

Australian Hulless This is a heavy yielder of attractive ears, peculiar in form, being nearly as thick as long. Kernels are similar to the best strains of White Rice, only longer and slimmer, and pearly white in color. The crowning merit lies in its popping qualities, fine flavor and absence of hull or shell. Tender and of delicious flavor when popped. Don't fail to try this excellent pop corn.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c

Mapledale Prolific

Golden Tom Thumb

One of the smallest Pop Corns grown, growing only about 18 inches high, and produces from 2 to 4 perfect little ears. Each ear is from 2 to 2½ inches long, with kernels of a bright golden yellow.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Mapledale Prolific This is a remarkable variety and the greatest yielding sort ever found among Pop Corn. Stalks grow about 5 feet high and it is claimed that as many as twelve ears have been produced on a single stalk. Its popping qualities are excellent, always pure white and of good flavor.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Black Beauty An extra early variety which pops crisp of all. Although the kernels are black, this color does not seem to show at all when popped, being then a pearly white. Extremely early, ripening so it may be popped the same year as grown, without kiln drying.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

American Wonder New Giant Variety
See Novelties, page 27. Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

Herb Seed Those marked (*) are perennial and when once obtained in the garden, may be preserved for years.

Anise—Seeds Aromatic.
*Balm—Has Medicinal Qualities.
*Coriander—Seeds Aromatic.
*Caraway—Seeds Aromatic.
*Dill—Seeds Aromatic.
*Horehound—Has Medicinal Qualities.

*Lavender—Very Fragrant.
*Rosemary—Very Fragrant.
*Summer Savory—For Seasoning.
*Sweet Fennel—Seeds Aromatic.
*Sage—Culinary Herb.
*Thyme—For Seasoning.
*Wormwood—Medical Qualities.

Price of any of the above varieties of herbs pkt., 5c; 3 pkts., 10c; 6 pkts., 18c.

Safe Crop Flint Corn

This is a splendid extra early Flint Corn, and a great yielder, ears are of good length, well filled with large, plump grains which fill out to the extreme tip of a small cob. Stalks grow to a good height and bear from two to three ears under good cultivation. Every one who wants an early Flint Corn that will mature in the northern climate as far north as Canada can make no mistake in growing this one, for I consider it a safe corn to plant, hence its name "Safe Crop." It is a very attractive variety being a cross between the very earliest strains of red, white and yellow flint sorts. My supply is limited and I can only offer small lots so my customers may get a little planting stock started.

Pkt., 10c; 3 pkts., 25c; 6 pkts., 40c.

Safe Crop Flint Corn

Early Golden Dent Corn

Early Golden Dent Corn

Here is a grand early, yellow Dent Corn for those who grow the Dent varieties. As far as I am able to learn it is the earliest yellow Dent, producing large stalks and ears, generally two good ears to a stalk. Grains long and wide of a beautiful bright golden color. It also produces a large amount of leaves making it very desirable for stock raisers. Seed supply quite limited only being sufficient so that my customers may get a start.

Pkt., 10c; 3 pkts., 25c; 6 pkts., 40c.

CUCUMBERS

Mills Earliest Everbearing

This is a grand early everbearing variety and is bound to become the most popular cucumber for growing outside or for forcing. Is very handsome in color and the cucumbers are just the right size. In productiveness it is hard to equal, producing an abundance of handsome fruits closely set on strong vines, is always tender, whether grown outside or in the hothouse. In sections where this cucumber has been tested it has created a sensation and everyone is anxious to get seed of it. It is the first to come and last to go; fruits all the time.
Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c; ¼ lb., 40c.

Japanese Climbing

Japanese Climbing

This grand variety came from Japan. Young plants are bushy, but as soon as they become well established begin to climb and may be grown on fences, poles or trellises. Vines are healthy and vigorous. They begin to bear early and continue to produce fruit throughout the season. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c.

Improved Long Green

Fancy Pickles

Fancy Pickles This is one of the most prolific strains of Cucumbers for pickles ever produced. They are handsome in shape and a marvel of beauty during the bearing months. Plant in your garden after danger of frost and you will be more than pleased, for they grow very quickly and produce a fine sort for slicing, as well as pickling. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

Prolific Pickle

Prolific Pickle is of medium size, slender, color dark green. Flesh is solid and thick, excellent in quality. Enormously productive, the vines set fruit when younger than most other sorts.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

Prolific Pickles

Klondike

This is a very handsome variety, dark green color. When it attains suitable size for market it averages from 6 to 7 inches in length, and is very early, excellent quality, firm and good for slicing. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

Klondike

Nichols' Medium Green

Unequaled as a class slicing sort, Early and late sorts. Very light green in color, very smooth, and fine quality. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

Mixed Cucumbers

This mixture contains early, medium and late sorts. You have an abundant supply of cucumbers, either for pickling or slicing. The vines keep bearing from early summer until late in season. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

Improved Long Green

This is a well known variety. The fruits grow from 12 to 16 inches long, and it is well known by everyone that this variety cannot be surpassed for slicing or pickling, and when ripe it is the best for sweet pickles. The vines grow strong and the fruit is always produced in great abundance, making it one of the most productive varieties in cultivation.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c; ¼ lb., 40c.

Mills Earliest White Spine

This Cucumero cannot be praised too highly. It is unequaled as a table and market sort and it is also excellent for pickling. It is very productive and good for slicing as well as growing in the garden. The fruits grow from 5 to 7 inches long. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

MUSKMELONS

Popularly Known
as Canteloupes

Mills
Earliest

Mills Earliest—A Magnificent Melon

This is my earliest Muskmelon. It is ahead of the famous Jenny Lind and in fact ahead of all the other early Muskmelons. The melons are of uniform size, of fine shape and appearance, delicious quality and sell in any market. They are nearly round, as may be seen by the illustration, of good size, finely netted. Inside is a rich orange color, and I venture to say the flesh is thicker than of any other variety. The seed cavity is very small.

I can recommend this variety for home or market use. It is the earliest, sweetest and most delicious muskmelon. Will please every one growing it. Just the melon for home gardens where a few melons can be produced very easily. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 35c.

Mr. A. S. Bilss, Hennepin Co., Minn., writes: Your 1200 to 1 Bean is a wonder. I had ½ of a quart of shelled beans from my first 6 plants.

Emerald Gem One of the very best. Skin is smooth and emerald green in color. Vines grow thrifty and produce an abundance of fruit, very rich and sweet in flavor. A grand muskmelon. Grow it this season and hereafter it will always find a place in your garden.

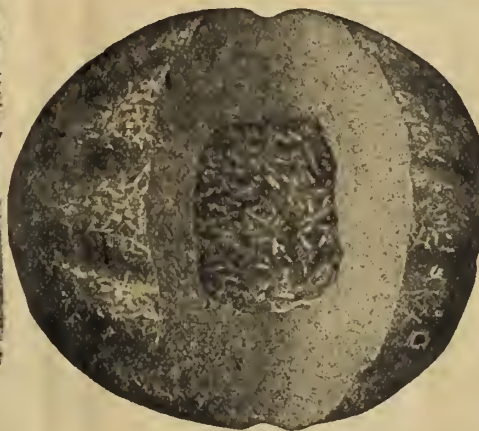

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

Bush Muskmelon

Bush Muskmelon The fruits are of the popular Jenny Lind type but large, averaging 5 inches in diameter. They vary somewhat in shape. The ribs are shallow; the surface is dark green. The flesh is very deep, edible almost to the rind, and is colored light green, flushed with salmon toward the center. The seed cavity is small, the quality is superb, lusciously sweet and juicy. On account of growing bush form it saves space. Should have a place in your garden.

Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

Yellow-Meated Prize

Yellow-Meated Prize

This is a good melon, sweet and luscious flavor, with fine netting, thick, yellow rich flesh, very early and handsome in appearance with a very small seed cavity. The vines grow healthy, strong, vigorous and productive and it is a splendid variety to grow for the home garden and very profitable for the market garden. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

Montreal Market One of the largest round muskmelons, weight from 15 to 30 pounds each, slightly ribbed; ripens early and keeps well. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

Jenny Lind This is a splendid early variety, and one of the best muskmelons ever grown. Being very early, it is valuable to grow in the North. The vines are hardy and bear abundantly. The melons are handsome and of fine flavor.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

Mixed Muskmelons

A mixture that will produce early, medium, late, green flesh and orange flesh varieties and give luscious fruit throughout the season.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

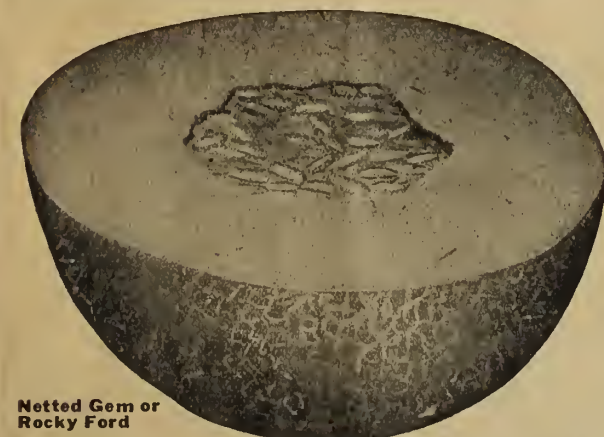

Mills Giant

This is a splendid large melon and a great favorite with all who have grown it. It is handsome in form, of the very best quality; flesh is rich and sugary, grows large, and is productive. It has thick flesh and small seed cavity and is a splendid sort to grow on account of its large, handsome appearance. I think this is the largest of all the muskmelons. Try it.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

Mills Giant

Netted Gem or Rocky Ford

Netted Gem or Rocky Ford This melon has become famous everywhere. It is an early variety, skin is green, ribbed and thickly netted, while the flesh is thick, of a light green color. Melons have a very small seed cavity, are firm and solid, and keep well.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; ¼ lb., 35c.

Watermelons

Leaflet on "Melon Culture"
free with order if
asked for

Mills
Earliest

Mills Earliest This Great Early Watermelon is making a splendid record on account of its extreme earliness. It is sure to be the first in the market. Delicious in flavor, very juicy and sweet and always salubrious. Excellent for family use, as a few vines will yield many melons. It is excellent to plant if you are in a climate where the seasons are short, for it will ripen where many others will not mature. Flesh deep red, very brittle; skin dark green, faint streaks of lighter green. Just the melon for Northern home gardens.

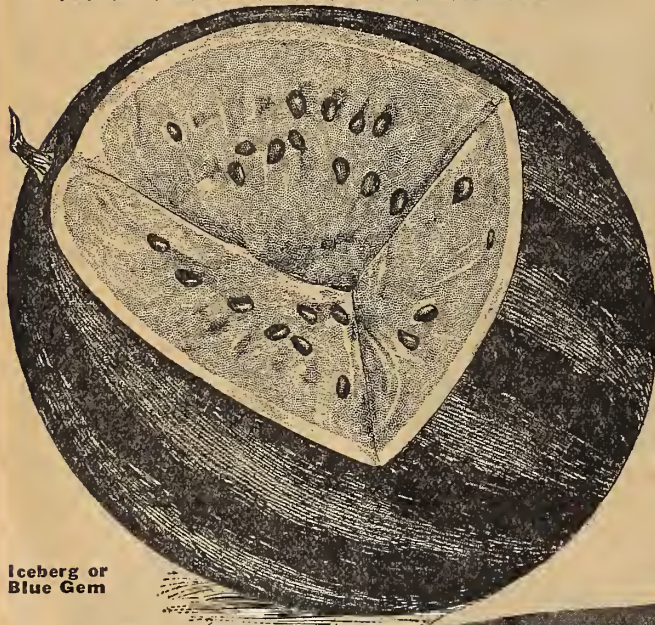

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c; ½ lb., 50c.

Citron Fruit round, handsome and small; used for making preserves only.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c.

Iceberg or Blue Gem In general shape, size and appearance this is similar to Kolb's Gem, but is distinctly darker, and the skin, when the melon rests on the ground is a rich yellow instead of white, as in that variety. It has a very firm, hard rind; an exceedingly good shipper.

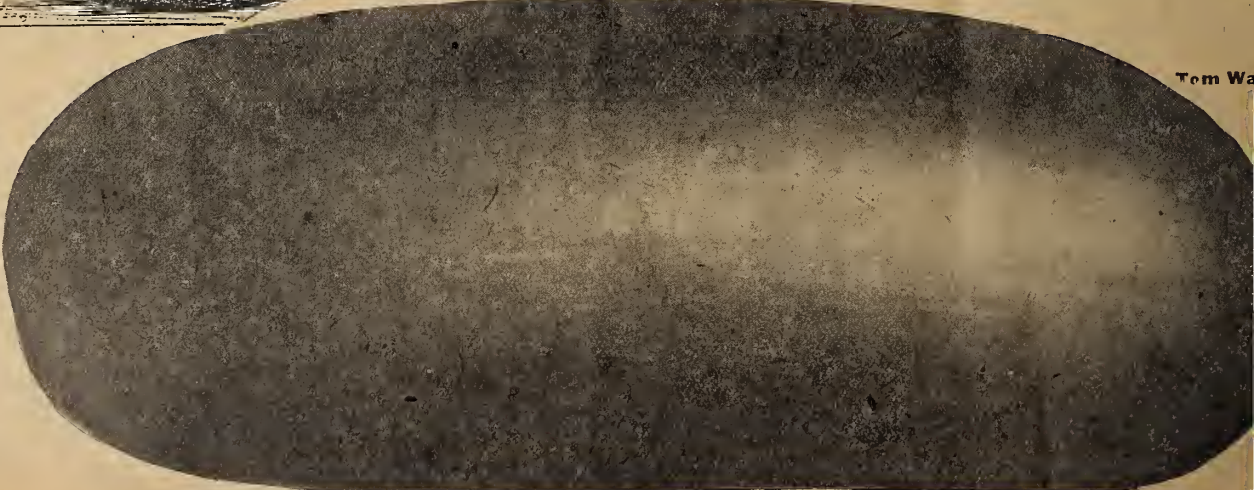

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c; ½ lb., 50c.

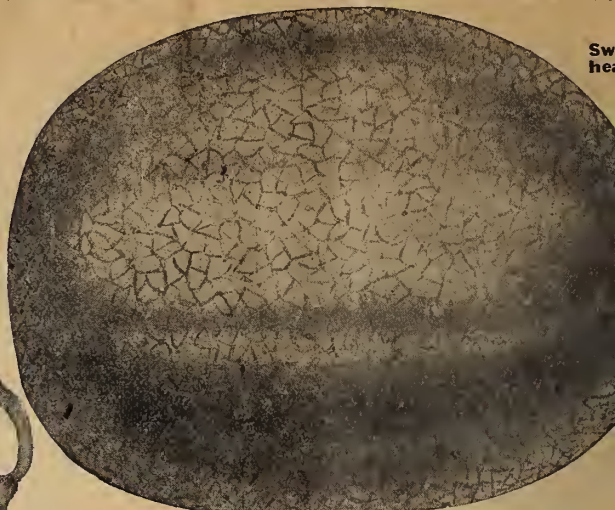

Iceberg or
Blue Gem

Tom Watson

There is a great deal of call for this Watermelon, which indicates that it is a good one. Although a new melon, it is a success in all sections where it is grown. The illustration gives a good idea of an average specimen. It's a long, green melon and often grows to weigh from 50 to 60 pounds and is excellent shipper, flesh an intense red color, superb quality. This is what all markets now call for. It's the great market melon. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c; ½ lb., 50c.

Tom Wa

Sweetheart This grand Watermelon is one of the earliest of the sorts. Handsome; good keeper; fruits are large; rind but firm. Flesh very bright red; solid and thick. An excellent watermelon grow. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c; ½ lb., 50c.

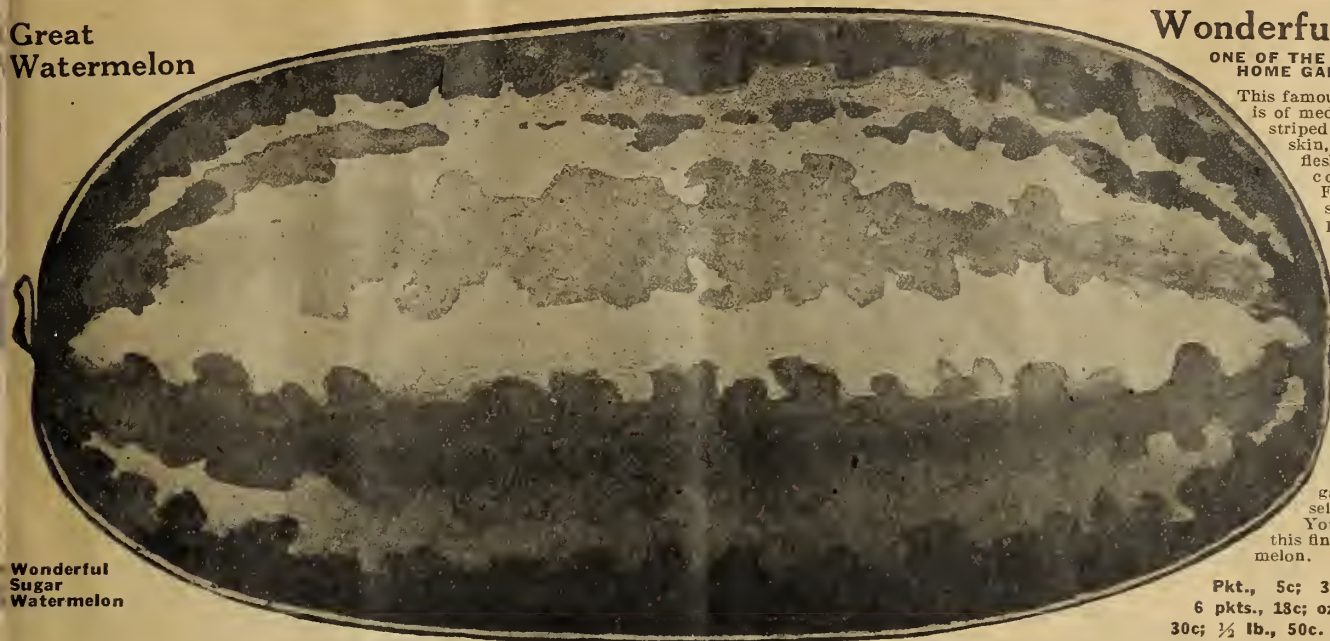

Dixie Beautifully striped. The flesh is an intense bright deep scarlet, very sweet and tender. Growers say the Dixie is the best eating and most productive melon they have ever grown.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c; ½ lb., 50c.

Kleckley Sweets This Watermelon is becoming very popular. It is especially valuable account of its fine flavor. It is a long, oval-shaped watermelon, with green rind. The flesh is very firm, scarlet in color and of the very best quality and crisp texture. It is a splendid family garden melon and always gives good satisfaction everywhere, and can highly recommend it to grow in the North or South. By all means plant it.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c; ½ lb., 50c.

Great

Sugar
Watermelon

Wonderful Sugar

ONE OF THE BEST FOR
HOME GARDENS

This famous Watermelon is of medium size, with striped or variegated skin, beautiful red flesh and light colored seeds. Flesh is entirely stringless, of perfect quality.

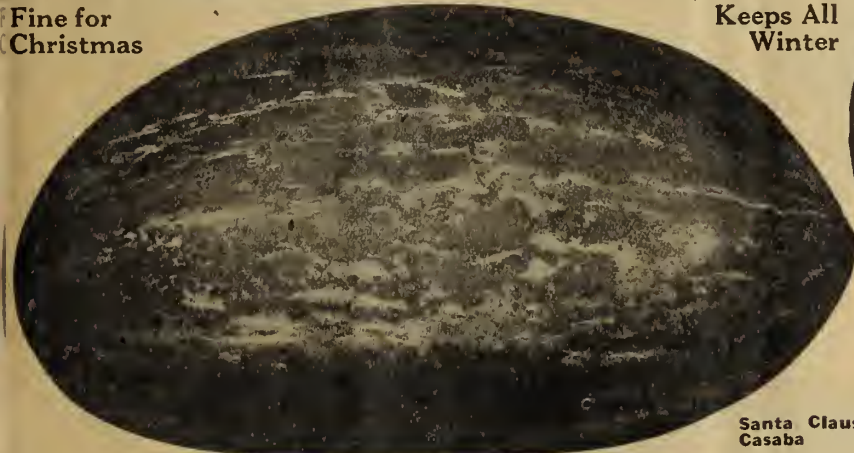

Vines strong, thrifty and prolific, and well adapted to withstand either wet weather or drouth. It is well adapted to nearby markets, but is rather delicate for long freight shipment. An excellent home garden melon of select quality. You should grow this fine home garden melon.

Pkt., 5c; 3 pkts., 10c;
6 pkts., 18c; oz., 9c; ¼ lb.,
30c; ½ lb., 50c.

Mr. J. M. Strohe, Carbon County, Pa., writes.
I am very much impressed with your quality of seeds, and the amount in each packet for the price.
Claude S. Dye, Sumner County, Tennessee, Aug. 18, 1919, writes:
Please send me your Seed Catalogue. Don't care if it is an old one, if you have no new ones ready. Have had something like 40 years' experience in gardening, and the best seed I ever bought came from your house.

CASABAS—Used as a Winter Muskmelon

CASABAS are a late variety of muskmelons to be classed in a group by themselves. They should be planted after all danger of frost in spring, and picked and put away in a dry place just before frost in the fall. All melons, even half-grown one, will ripen gradually, giving a continual supply all winter. I offer two varieties, Santa Claus and Golden Beauty.

Fine for
ChristmasKeeps All
WinterSanta Claus
Casaba

Santa Claus This is a real novelty and the name is very appropriate, as it is in prime condition to eat during the holiday season. Its light green flesh is stringless. It looks like a mottled muskmelon (see engraving). Rind very hard, there is no seed cavity. Seeds are imbedded in a small jelly-like pulp. Plant and cultivate same as muskmelons. Plant a few seeds in your garden this spring.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c.

Golden Beauty
Casaba

Golden Beauty This is one of the best Casabas, and is extensively grown and sold at very high prices during the early winter months. The melons are nearly globular in shape, bright yellow with golden tint and wrinkled skin. Measures 6 to 8 inches in diameter. The flesh is white, very thick, juicy and of delicious flavor.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c.

Hybridized Potato Seeds

FROM THE SEED BALLS—THE RAREST
OF SEEDS

Millions never saw a Potato Seed Ball. Thousands have tried in vain to get the seed. Now is your opportunity. This unrivaled seed will produce an endless variety of new kinds. Your fortune may be in one of them. They are as easy to grow as tomatoes.

Growing new and distinct Seedling Potatoes from the Seed Ball Seed is intensely interesting. They will be the greatest curiosity of your garden. This seed will positively produce innumerable new kinds, colors, shapes, sizes and quantities. The product will astonish you. Some may be of immense value and bring you a golden harvest. Every farmer, gardener, and bright boy should plant a few packets. You may be one of the lucky ones. Full directions on every packet.

Thousands of Dollars have been made producing new varieties of potatoes. Who knows but you may do as well? Is it not worth a trial? New creations of merit bring rich returns and 'tis the enterprising experimenter that reaps the honor and the golden harvest and he is worthy of his reward. Encourage your boy to try. Nothing would interest or benefit him more.

Photo of Potato Seed Balls—One-Half Natural Size.
It is from these that ALL valuable new varieties of Potatoes are produced.

Read These Extracts from
Customers' Letters

"I grew 101 Potatoes from one plant of your Potato Seed. Every plant was a different variety."—Mrs. Ellen Keener.

"I raised 50 hills from one packet; many kinds and colors; some early, some late. 94 Potatoes in one hill."—J. H. Skinner.

"Your remarkable Potato Seed produced white, pink, red, purple, blue, cream, russet and black potatoes."—W. M. Johnson.

"Your Potato Seed is a wonder. I grew 115 different varieties from one packet—the finest I ever saw."—C. E. Flint.

"I grew 45 pounds of Seedling Potatoes from one packet. I expect wonders from them next year."—Thomas Lucas.

"The packet of Hybridized Potato Seed brought splendid results, some potatoes growing over half the natural size. I transplanted 15 hills. Every hill produced different kinds of potatoes. Some hills were white, some yellow and some red. One hill, the roots run like a cucumber vine with potatoes on every inch of the roots. One hill was a beautiful red potato—just the shape of a banana. Another hill bore 276 potatoes from the size of a hen's egg to the size of a small pea. I await future developments with great interest."—F. A. McDonald.

"We planted your Potato Seeds last spring and got a large assortment of all sorts, colors and sizes, as is usual with such seed. We saved a lot of the most promising ones to plant the coming season."—C. C. Matthews, Horticulturist.

Try a few of these seeds and see the great collection you will grow.

Onions

Leaflet, "How to
Grow Onions
from Seed," free
with order
if asked for

White Pickling This is the earliest Onion in cultivation, producing very little white bulb. At maturity the tops die down close to the bulb. For table use and pickling there is no onion that equals it on account of its being so very early. I cannot too highly recommend it. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c.

Large Red Wethersfield

Large Red Wethersfield

There are many strains of this celebrated Onion offered, but I am sure that none can surpass my famous stock of this popular variety. Some strains will not mature until late in October. I have for years taken particular pains in selecting from bulbs that will produce very large crops of these onions, maturing early in the fall and two-pound specimens the first year from seeds are of frequent occurrence. Yields of 600 to 800 bushels of my Wethersfield per acre are not uncommon. It is a magnificent keeper, the skin being a deep purplish red, flesh pure white and moderately fine grain. They are excellent for shipping and I claim there is no strain that can surpass my famous stock of this popular variety. I consider it in every way a perfect red onion for home or market purposes.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 20c; ¼ lb., 60c; lb., \$2.00; postpaid.

Extra Early Red Onion

Extra Early Red This is one of our standard American Onions; succeeds in cold mucky ground where other sorts fail; matures before Red Wethersfield and if grown in rich soil will produce bulbs almost as large. Can be made to produce fine onions 30 days from sowing; mild flavor and keeps well; color deep rich red; grain fine and close; onion small and heavy; well adapted for early market; particularly adapted for Northern latitudes, or where seasons are short and cold.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 20c; ¼ lb., 60c; lb., \$2.00; postpaid.

Mills Selected Yellow Globe Danvers

Mills Selected Yellow Globe Danvers

Always attain a good size with deep bulb and small neck. They grow uniformly, large size and command the highest market prices. Skin is rich golden yellow, flesh white, very fine grain, mild, pleasant flavor, excellent keeper and one of the most productive. This is the very best strain of Globe Danvers and my seed tests very high.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c; ¼ lb., 40c; lb., \$1.50.

Giant Australian Brown

This is a very choice selected strain of **Australian Brown Onion**, grown from the very largest and best specimens. The color is good, as well as the shape, and the keeping qualities cannot be surpassed. These handsome onions are extremely hardy and yield an enormous crop, skin being of a beautiful rich brown red in color. The flesh is white, very solid, sweet and of mild flavor. Its keeping qualities are remarkable and I believe it is the longest keeping of all onions, having been kept in good condition, fit for market, for over a year after being harvested. Try this onion in your garden this year.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 20c.

ing Redd
Brown On

Mammoth Silver King Onion

The largest white onion, grows to a remarkable size, average diameter 5 to 7 inches, bulbs often weighing 3 to 4 pounds each, being attractive in shape, flattened but thick through. There is no other white onion that attains such a mammoth size. The skin is a beautiful silvery white, flesh is a snow white, and is of a particularly mild and pleasant flavor, so sweet and tender that it can be eaten like an apple, matures quite early and a sure cropper. You can grow mammoth specimens from seeds sown early in spring in your garden. Try this great onion.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 25c; oz., 50c.

Great Prize Taker Onion

PRIZE TAKER produces large, handsome bulbs of superior quality and grows very uniform in size, nearly a perfect globe. It has a very small neck and always ripens up hard and fine without any stiff necks. The skin is of a bright straw color and presents a handsome appearance in market. The bulbs grow to an enormous size, often measuring 10 to 15 inches in circumference, and attract a great deal of attention in any market. The keeping qualities are excellent and the bulbs appear to be as firm and solid in the spring as when put away in the fall.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 30c; $\frac{1}{4}$ lb., 80c; lb., \$2.75.

Onion

Parsnip

Improved Long
Smooth or
Sugar

This is one of the very best Parsnips in cultivation. It matures early, yielding a large crop and bringing the highest prices. The roots grow to a fine size, enabling them to be easily dug. They are very smooth, flesh is fine grained and of excellent quality. It is a great-cropper, and is just the Parsnip to grow in the home garden. It is an easy matter to grow a few Parsnips in your garden. They can remain in the garden all winter and be taken up in spring as wanted.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 15c.

Long
Smooth or
Sugar

Spinach

EARLY GIANT THICK-LEAVED—

Is one of the largest varieties grown. Stands hot weather well. A great favorite in all parts of the country for spring or fall sowing.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Salsify or Vegetable Oyster

Mammoth Sandwich Island

This is one of the largest and smoothest, and most profitable of vegetable oysters in cultivation. Roots are pure white in color, larger than the ordinary salsify, of very superior quality and fine flavor. Flesh very fine grained, tender and of pronounced and agreeable oyster-like flavor. Invaluable to market gardeners, and just the one to grow in the home garden. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 30c.

Giant Crimson Rhubarb or Pie Plant

It is the earliest of all Rhubarb. As fast as stalks are pulled new ones take their places. Stalks are of medium size, of good length, about one inch in diameter, of beautiful crimson color, the quality being simply superb, fully equal to the finest berries for sauce or pies. It is really a combination of fruit and vegetable. The skin is so thin and tender it is not necessary to remove it, and when cooked makes a beautiful crimson sauce which looks and tastes like berries. Rhubarb is one of the first vegetables from the ground in spring and the easiest plant of all perennials to grow. You can grow good plants from seeds. Every garden should have a few Rhubarb plants.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Mammoth Sandwich Island
Salsify or Vegetable Oyster

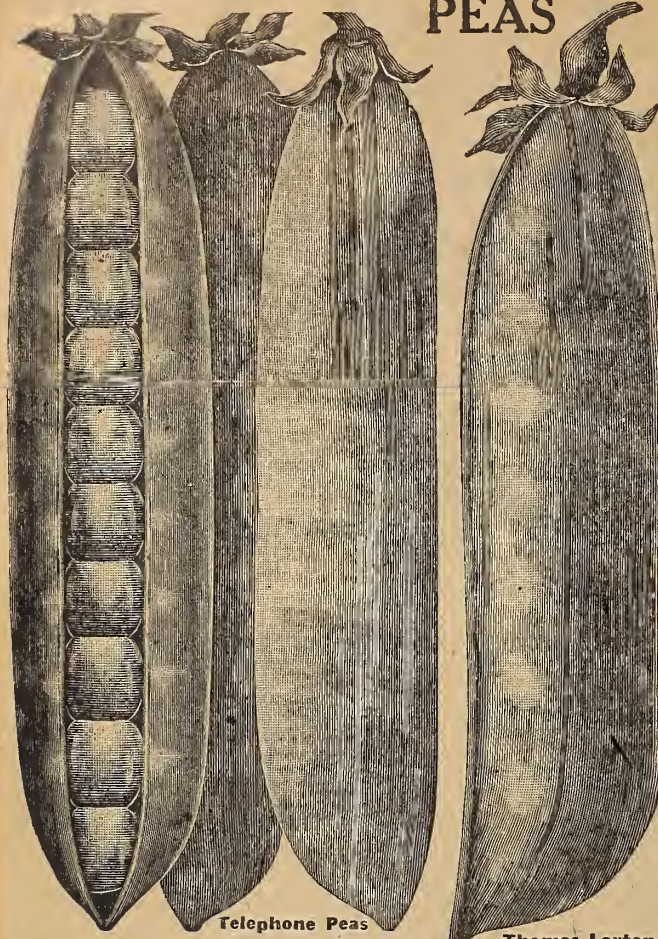

PEAS

Mills Enormous

Giant of the Pea Family

See Page 26

Pkt., 10c; 3 pkts., 25c; 6 pkts., 40c; ½ lb., 50c; lb., 75c; postpaid.

Telephone Peas

Thomas Laxton

Telephone A strong, luxuriant growing main crop variety, attaining a height of about 4 feet. Very prolific, producing a large number of pods to the stalk. The pods are always large and filled with immense wrinkled marrow Peas, 6 to 8 being the average, while 10 to 12 peas to a pod are common. Pkt., 10c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 25c; lb., 45c.

AMERICAN WONDER—Early Pea and is preferred by many. Its earliness makes it a valuable sort to grow. It is of dwarf, robust habit, producing a profusion of good-sized, well filled pods. Pkt., 10c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 25c; lb., 45c.

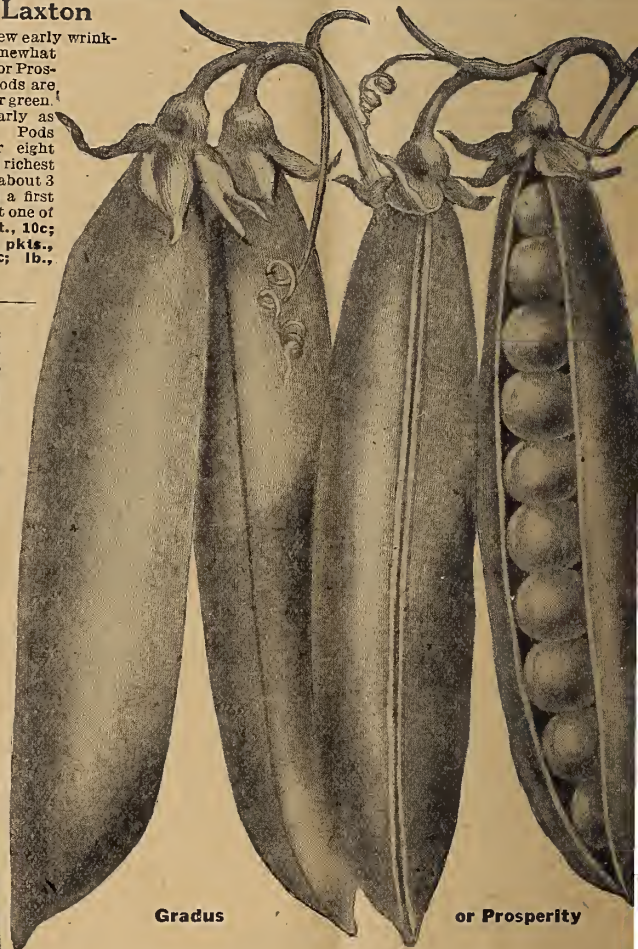

MILLS FIRST-OF-ALL

The very best early smooth Pea. Its height is about 2½ feet and produces pods of good size which are well filled with smooth, round creamy white peas that ripen so evenly as not to require more than two pickings to clear the crop. It is a favorite everywhere and I am sure will please all for early spring planting. Pkt., 10c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 25c; lb., 45c.

Mills First-of-All Peas

Thomas Laxton

This is a fine new early wrinkled Pea and somewhat resembles Gradus or Prosperity, but the pods are a deeper and richer green. It is about as early as the First of All. Pods contain seven or eight large peas of the richest flavor. It grows about 3 feet high and as a first early I consider it one of the very best. Pkt., 10c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 25c; lb., 45c.

Gradus

or Prosperity

Gradus or Prosperity

It is popular wherever grown and it is considered one of the very best large-pod wrinkled peas which will mature pods only a few days later than the small-pod round seeded extra early varieties. The pods and peas are always large and tender and sweet for some time after they are large enough to use.

Pkt., 10c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 25c; lb., 45c, postpaid.

Unsurpassed Everbearing

Grow about 2 to 2½ feet high and strong, healthy vines grow very profusely. They are immense yielders, producing enormous sized pods, always filled with peas. They are free from mildew, which is common among late peas, they stand at the head for productiveness, while the flavor is the very best. I want the very best hardy, productive and enormous yielding large pea, do not plant Unsurpassed Everbearing.

Pkt., 10c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 25c; lb., 45c, postpaid.

Champion of England

A well known variety and acknowledged to be one of the best for late sowing.

Pkt., 10c; 3 pkts., 20c; 6 pkts., 30c; ½ lb., 25c; lb., 45c; postpaid.

George Spaulding, Hampden County, Mass., writes:

Received the seeds I ordered last spring, and I had fine success with them, better than I ever had before with any seeds.

Unsurpassed Everbearing Peas

Peppers

Mills Improved Ruby King

Mammoth Golden Queen This is the largest, sweet yellow Pepper, handsome, very productive, perfect in shape, uniform in size, mild flavor and of a golden waxy yellow color. The illustration gives a good idea of the appearance of the plant of this handsome variety.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Mexican Bouquet Pepper

Mammoth Golden Queen Pepper

Mexican Bouquet Pepper The plant grows from 1½ to 2 feet high and is very prolific, always producing a large number of clusters of peppers in the form of a bouquet, as shown by the illustration, there being from 12 to 36 cone-shaped fruits to the bouquet, from ¾ to 1 inch long.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c.

Long Red Cayenne—This is the true Cayenne; conical shaped; red; hot flavor.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c.

Chinese Giant

Chinese Giant Pepper

A large variety producing enormous fruits in great abundance on strong plants which grow about 2 feet high, of a handsome branching character. The peppers are thick, tender and mild, while the skin, when ripe, is of a brilliant scarlet. It certainly is a giant variety of the mildest flavor and pronounced the finest and largest pepper grown.

Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

Giant Crimson Pepper

EARLY, LARGE AND SMOOTH

This is an exceptionally early, large, smooth sweet pepper. It is the earliest maturing large variety on the market. The plant is vigorous, and upright growing 2½ to 3 feet high. The fruit is not quite as large as the Chinese Giant, but some prefer it. Very sweet, with exceptionally thick, heavy flesh. The color is a beautiful deep green when young, turning to a deep crimson when matured. An excellent, large mango pepper used for stuffing equally as good for the table. An ideal home garden sort.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Mills Improved Ruby King Pepper

A well known variety and one of the leading peppers, always in great demand. It grows to a good size, producing large size, brilliant red peppers, which are sweet and of mild flavor. Ruby King is a sort that can be relied upon, and I offer seed selected from extra large specimens. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Mixed Peppers

I have made up a mixture of all the leading varieties of peppers which will produce a great display of all the different shapes, colors and sizes and a valuable selection to make if one wants a good collection of peppers. In this mixture will be found some new varieties not offered separately. By all means order a packet of this mixture.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c.

Egg Plants

BLACK BEAUTY—This is one of the earliest and best of all large-fruited Egg Plants. It grows large and the skin is a rich purple black. Is a real beauty. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; ½ oz., 25c.

NEW YORK IMPROVED LARGE PURPLE—Skin deep purple. Free from thorns. Flesh, white, quite productive; considered one of the best. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; ½ oz., 25c; 1 oz., 40c.

N. Y. Improved Large Purple Egg Plant

Tomato Pepper

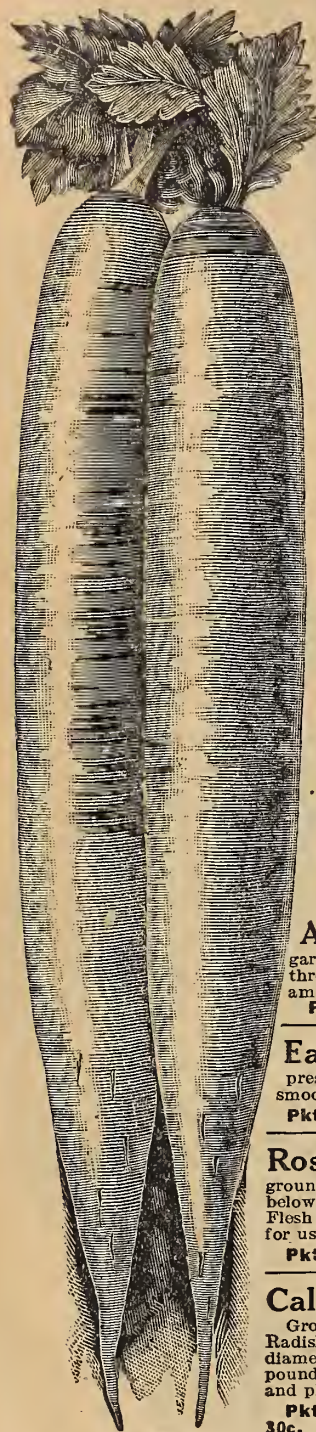

New Tomato Pepper Many people, when first seeing it, call it a tomato. It makes an upright growth and is distinct from any other; enormously productive and so mild it can be eaten out of the hand like an apple. It bears from June until fall. Try it.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c.

Black Beauty Egg Plant

RADISH

Icicle This is a long, extra early variety with color of snow-white. It is crisp and brittle and of an excellent mild flavor, many claiming that it has a better flavor than the scarlet varieties. It has the same mild flavor at all stages of its growth and is the most popular of any of the white sorts. It is a short-top variety, having few leaves, and the roots are very uniform in size. I sell more Icicle Radish Seed than any other variety.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

MILLS EARLIEST RADISH

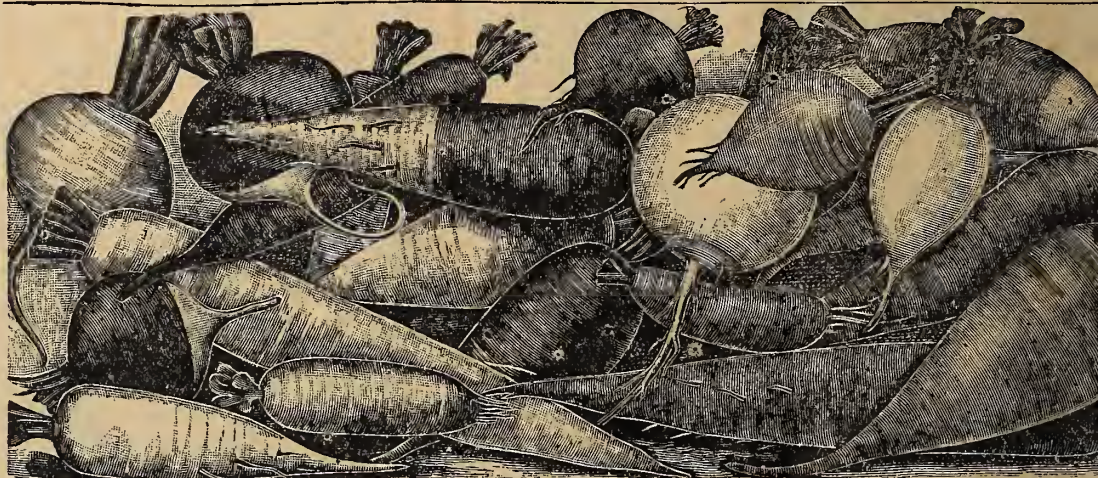

MILLS EARLIEST—This is a handsome Radish and without doubt one of the earliest in cultivation. It has been my favorite for years. It certainly is a beautiful variety, round with dark scarlet skin, very tender and of fine flavor. Has short, narrow leaves, making a very short top and is sure to become a favorite with all who plant it. My seed stock is very fine and I can recommend it to all. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c.

15 Day This Radish is a wonder for growth and I think it is a few ahead of my earliest. Records show it has produced radishes fit to use in 15 days. Is very crisp, tender, of a deep scarlet color.

Mrs. H. J. Engleman, of Ohio, writes: "more than pleased with your seeds. The 15 Day Radish was just grand. I cannot say too much."

Pkt., 8c; 3 pkts., 20c; 6 pkts., 30c.

All-Seasons Radish Mixture

The best mixture of Radishes ever offered; contains all shapes, sizes and colors. Just the thing for small gardens when space is limited, and you want to have radishes throughout the season, having all the leading early, medium and late sorts. I am sure this mixture will surprise you.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 25c.

Early Scarlet Turnip

WHITE-TIPPED—This Radish is sure to please all who grow it. It presents a beautiful appearance and is very popular. The skin is very smooth; flavor excellent; tender, crisp and mild.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c.

Rose China Winter

A large fine shaped, rose colored Radish, growing partly above the ground. The portion above ground is darker in color than that below ground. The size is 3 to 4 ½ inches long and in proportion. Flesh pure white. Flavor mild to slightly pungent. A good keeper for use in winter.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c.

California Mammoth White Winter

Grows to a larger size than any other White Winter Radish. I have grown specimens measuring 7 inches in diameter and about 18 inches in length, weighing 8 pounds. It is an excellent table variety, having a mild and pleasant flavor at all stages of growth.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c.

LONG SCARLET SHORT RADISH

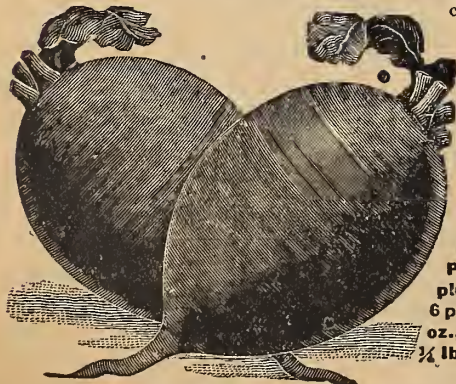

This is without doubt the best red Radish. It is early and the leader in outdoor quick growth variety. Brittle and tender. Roots a bright scarlet color. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c.

Crimson Giant

This is an early turnip-shaped Radish, but double the size of other varieties of that type, often measuring 6 to 7 inches in circumference. Notwithstanding its large size, it has an excellent flavor, mild and crisp, and has not the hollow or pithy center, while it is equally suitable for forcing or planting in the open ground as varieties developing to only half its size. It is a rapid grower.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c.

Crimson Giant

FRENCH BREAKFAST RADISH

FRENCH BREAKFAST—This is an early bright scarlet; tender and an excellent variety for forcing in frames for early market. One quick growing, and its beautiful rose scarlet color, with white tip, is recommended everywhere. The standard early variety in the French market. Grows in all climates; is very attractive.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c.

PUMPKINS

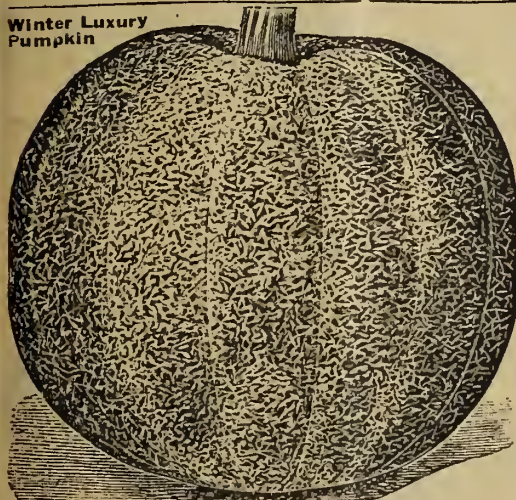

Golden Sugar

Is a splendid Pie Pumpkin. The pumpkins are not large, but of excellent quality, and I am sure will give great satisfaction. It is extremely early, remarkably prolific, yielding six to twelve medium size pumpkins to a vine; fine grain, sweet, sugary and the earliest of all Pie Pumpkins. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 40c.

Golden Sugar Pumpkin

Winter Luxury Pumpkin

Winter Luxury

Enormously productive, of medium size, golden russet in color and one of the best for pies. A great keeper; fine grain; rich and sweet. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 40c.

Surprise Pumpkin Mixture

Surprise Mixture Pumpkins from Photo

MY SURPRISE PUMPKIN MIXTURE IS A WONDER—You can grow a great lot of pumpkins, including earliest, medium and late varieties, with all the odd-shaped and mammoth sorts, if you plant seed of this mixture. It is the grandest collection of pumpkins ever offered. This seed will produce pumpkins of every imaginable shape and color, and I know you will be pleased with it.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 30c; ½ lb., 55c; 1 lb., \$1.00 postpaid.

Common Field Pumpkin

This is the ordinary Yellow Pumpkin used to plant in corn fields for feeding stock. It is very productive. Hardest of all and good for pies.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 9c; ¼ lb., 30c.

Quaker Pie

This is a handsome Pie Pumpkin, creamy white on the inside and out—flesh is sweet and rich.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Pimiento Pepper

The Mildest Flavored of all Peppers

Claimed to be the mildest flavored of all peppers, preferred by canners everywhere, a heavy yielder, and continues fruiting until killed by frost. It is extensively grown for pickles, its productiveness makes it profitable for market gardeners, as it yields heavy crops throughout the season. It grows smooth, flesh thick and uniform, and the best sweet flavored pepper both for salad and stuffing to be found. Should be planted in every garden where a sweet flavored pepper is wanted.

Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

Chinese Cabbage

This is a wonderful new salad plant and all who like to try new things will find this a real pleasure. It resembles celery and yet it is something like Cos Lettuce. Its firm, crisp heads, easily blanched, excellent cooked as greens or as a salad.

Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

Early Fortune Cucumber

A very attractive variety being fine grained, exceedingly crisp and brittle. Its color is an attractive deep green which it retains much longer than most other sorts. It is one of the earliest, deep green, white spine cucumbers, and is sure to please. Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

Everybody's Tomato

Best Early Dwarf Tree Tomato

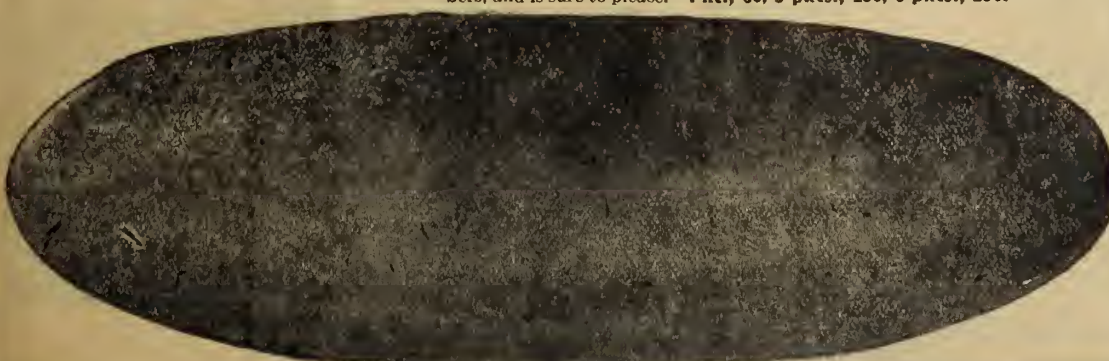

Everybody's Tomato is the very best Extra Early Tree Tomato, which is a selected strain "everybody" should grow, hence its name. This variety develops a vigorous, stiff and upright plant producing fruit well above the ground. Fruit is produced in great abundance, is nearly round, smooth, of medium size, being a handsome purplish pink color, while the quality is the very best. The dark green leaves are very striking in appearance, making the plant stand out distinct from all others. Everyone will be pleased with this tomato.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 29c.

Mr. J. P. Swann, of Fulton County, Kentucky, writes:

I wish to state that the Peas you sent me, Mills Enormous, are the finest that I ever saw. They have their right name.

Pimiento Pepper

Selected Squashes

True Hubbard

This is the well known variety planted by more people than any other sort, and has become the American favorite. There is always a ready market in the large cities for this favorite sort. It outsells all other varieties. I have taken particular care in selecting my strain and I believe my Hubbard is the choicest type of Hubbard Squash grown. The flesh is a rich yellow, is very fine grained, solid, sweet and dry. The strain is nearly always true in color, being a dark green. I can highly recommend my True Hubbard seed to all, and have a choice supply.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c; ¼ lb., 50c.

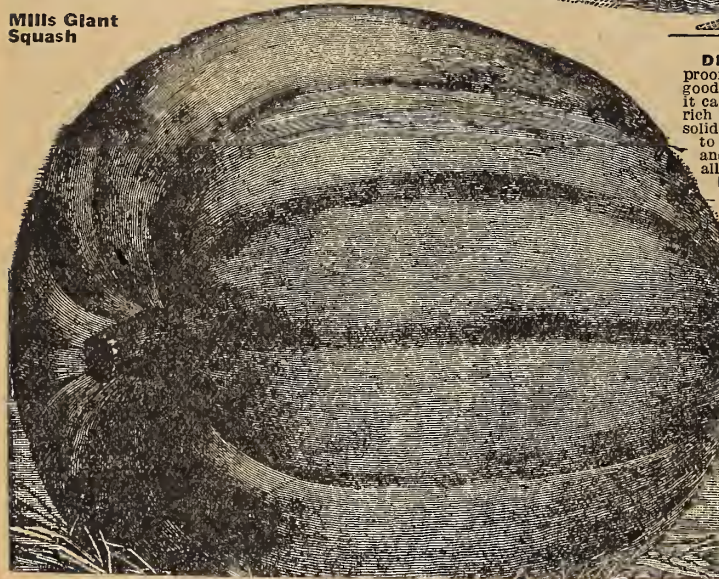

Golden Summer Crookneck

This Summer Squash is still the most desirable early summer variety. The outer skin is very rough and of a light orange yellow. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 40c.

Squash Mixture

All the early and late sorts are included and this is a good selection to plant for a collection of varieties. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c; ¼ lb., 40c.

Mills Giant Squash

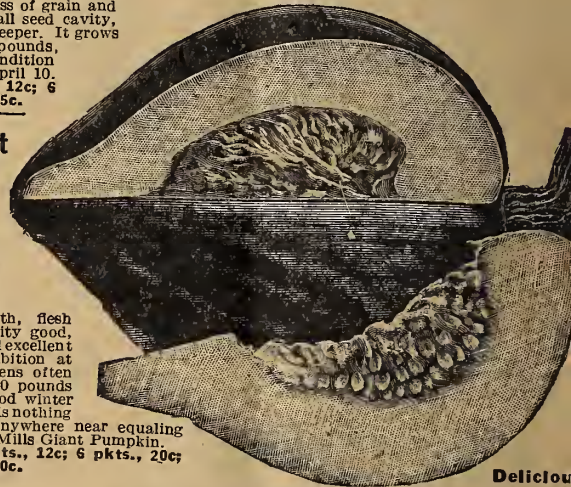

DELICIOUS—It is claimed on good proof that this Squash has no equal in good qualities. Everyone who has grown it can testify to its fineness of grain and rich flavor. It has a small seed cavity, solid flesh and is a good keeper. It grows to weigh from 5 to 10 pounds, and has kept in good condition all winter and up to April 10. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c, oz., 15c.

Mills Giant

Largest of all Squashes. It is a perfect wonder. This Giant Squash has become a great curiosity as well as very valuable wherever grown. The color is a bright yellow, skin very smooth, flesh quite thick, quality good, is very prolific and excellent to grow for exhibition at fairs. Specimens often weighing over 250 pounds each. It is a good winter keeper, and there is nothing that can come anywhere near equaling it in size, except Mills Giant Pumpkin. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c; ¼ lb., 50c.

Delicious Squash

Delicious

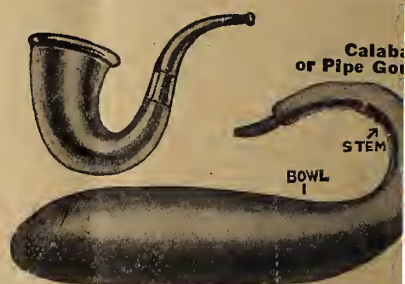

Odd Collection of Gourds

Here is a wonderful mixture of rare, strange, curious Gourds one would never think of seeing. The colors, shapes and sizes would astonish you. Just the seed you will want to plant for a curiosity. Contains about all there is in the way of gourds. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c.

Calabash Pipe Gourds

This is a wonderful, attractive Gourd which anyone can grow, and it can be used in making pipes. They are the lightest pipes made, for their size, graceful in shape, color like meerschaum.

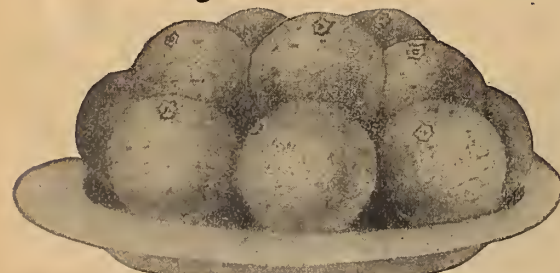

The plants thrive and do well in all parts of the country, producing an abundance of Gourds from which the pipes can be made. The vine is not only very productive, but ornamental and useful covering arbors, fences and unsightly places. Anyone can grow it in the garden, back yard, or place around the house. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c.

Calabash or Pipe Gourds

STEM
BOWL

Vegetable Peach

Here is a vegetable you should grow. The fruit is about the size of a large Peach, of a bright orange color, which is produced on vines somewhat smaller than a muskmelon vine. It is easily grown, flesh firm, and a good keeper. It is fine for pies, sauce, preserves or sweet pickles. Grow it this year. Recipes for cooking, canning and preserving free with every order. Pkt., 10c; 3 pkts., 25c.

Vegetable Orange or Garden Lemon

This is a splendid novelty of recent introduction, handsome in color and appearance and an enormous yielder. As shown vines are smaller than a muskmelon vine, but they require about the same cultivation. It is a wonderful yielder, producing fruit about the size of an Orange, of a bright yellow color, somewhat russeted. For sweet pickles, pies or preserves, they are splendid and can be used in many ways. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Vegetable Orange or Garden Lemon

Tomatoes

Everybody's Tomato (Earliest Dwarf Tree Tomato) See Page 21 for illustration and description
It's a Beauty. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c. (Leaflet, "How to Grow Tomatoes") Free with order if asked for

One Plant of My Quick Crop Tomato

Quick Crop Tomato—One of the Earliest in Cultivation

This is the great tomato I recently introduced and I have received nothing but praise for it from every section where it has been grown. It has made wonderful records everywhere. It is handsome in shape, as will be seen by the illustration; very smooth, thick from stem to blossom end, very solid and heavy. Free from cracks and ridges, and the meat is solid, with only a few seeds. The color is a beautiful dark red. The fruits are produced in large clusters, ripening from early summer until killed by frost. Taking all points into consideration, it is one of the most perfect early tomatoes I have ever grown. Not only is it perfect in form and quality, but it is a perfect wonder for earliness, producing large, handsome, red fruit very early. The vines grow strong and are very hardy, making it desirable for early planting. Not half enough can be said in favor of this great early tomato, and I want my customers to grow it this year. It deserves a place in every garden, and I highly recommend it to everyone.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; ½ oz., 30c., oz., 50c.

Great Tomato Collection

A packet of mixed Tomato seeds will prove a great curiosity. It contains all the varieties I offer and many others. All the early, medium and late kinds of the different colors, shapes and sizes will be produced. One of the most interesting collections ever offered.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 30c.

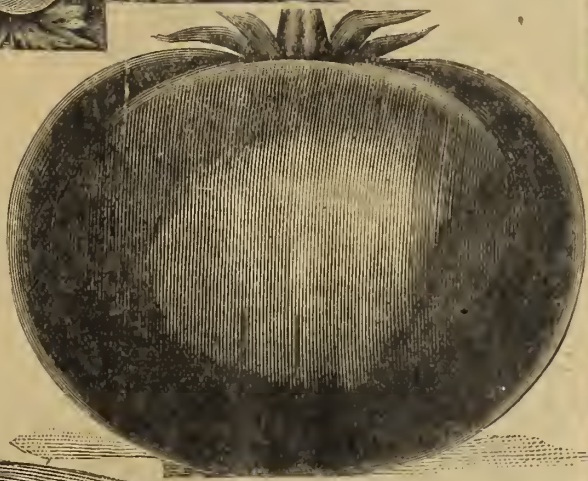

Mills Early July Tomato

Mills Early July This is a splendid early variety I have made quite a specialty of for several years. Its great value lies not only in the time of ripening its first fruits, but that such a quantity of fruit can be gathered from a single plant while many other early varieties ripen only a few fruits. They are perfectly smooth, large size and very handsome, the color being a bright red. They grow in large clusters, which ripen from July until killed by frost, and command the highest market price. This variety deserves a place in every garden, and I can highly recommend it.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 30c.

Ponderosa This variety is claimed by some to be the grandest Tomato ever grown. A large, handsome variety. Often attains a circumference measurement of 18 inches, and frequently weighs 2 pounds each. Perfect in form, almost seedless; ripens thoroughly and is quite free from wrinkles, very solid and meaty. A handsome crimson in color and free from rot. It is a very healthy grower, free from blight and a continuous bearer all season.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; ½ oz., 30c.

June Pink Tomato

Ponderosa Tomato

June Pink Deep pink or purple. Young plants develop a large cluster of blossoms very soon after being planted in the garden. Fruit measures 3 to 5 inches in diameter, and is borne in clusters. Mild, sweet flavor. This tomato is well worth growing.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 30c.

Sparks Earliana This is a smooth Tomato and is claimed to be one of the earliest varieties grown, especially adapted for market gardeners; of a beautiful red color.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 30c.

Golden Queen A first class, large smooth, pure yellow Tomato, the best of the yellow class.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 30c.

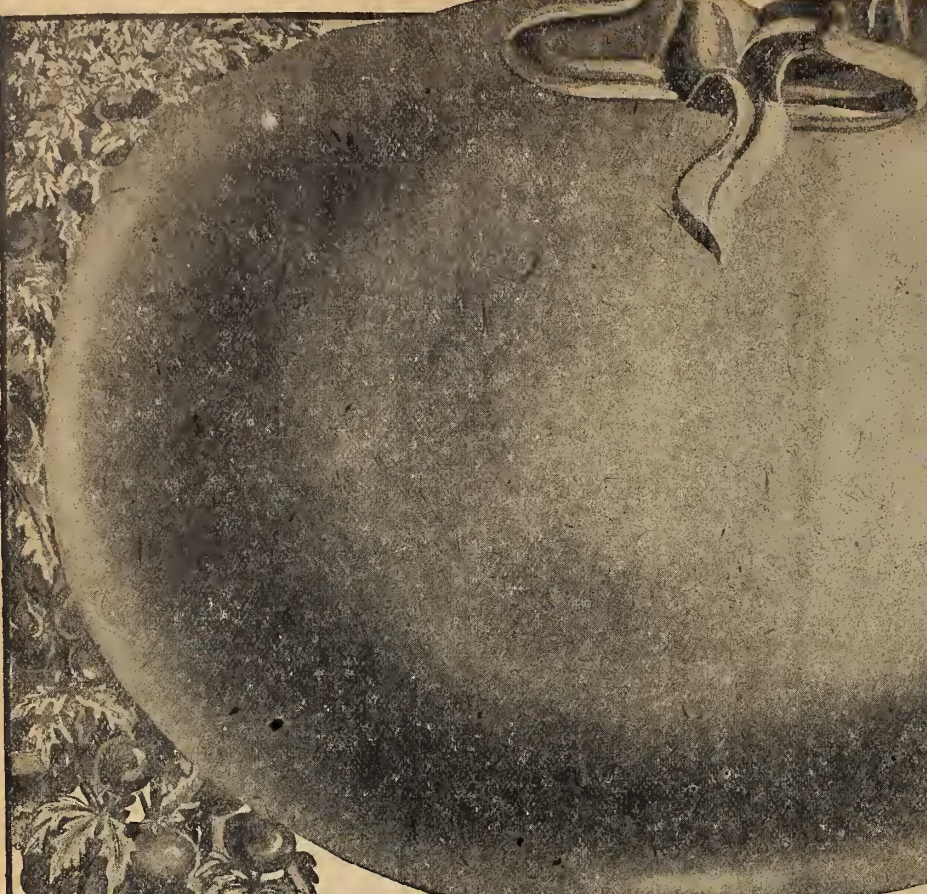

Giant Climbing

OR MILLS
MAMMOTH PRIZE
TOMATO

This great tomato is known as **Giant Climbing Mills Mammoth Prize** and is one of the largest tomatoes grown. It was introduced several years ago, and it has a great satisfaction everywhere. It possesses every quality to be found in a tomato. The fruits are strong and luscious and will properly trained easily attain a height of 15 feet and carry an enormous weight of fruit. Its mammoth fruits are almost perfect in form, and free from ridges, as to size, weight, solidity, no other mammoth tomato can approach it. I have seen specimens of this tomato weighed three and one-fourth pounds and specimens weighing two and three pounds each are common occurrences. The skin is exceedingly firm and a marked peculiarity of this variety is that it is almost seedless. It started early, the fruit ripens from July until killed by frost. There is no garden complete without this mammoth tomato.

CAUTION—There are the small growing bush tomatoes called **Tomatoes** and the tall growing tomatoes called **Tree Tomatoes**. If you want the true **GIANT CLIMBING** order your seed of me and you will not be disappointed.

Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

Improved
Extra
Early
Tree

A very early variety, grows erect, has a dark green foliage and the plant is quite ornamental. Has been largely advertised and preferred by many.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; 1/2 oz., 30c.

Giant Climbing

Imp. Extra Early Tree
TomatoMammoth
Fruited
Ground
Cherry

Mammoth Fruited Ground Cherry is by far the most prolific of all Ground Cherries. Besides, the fruit is about double in size that of any other variety some of the fruit measuring 1 1/2 to 2 inches in diameter, of a dark purple Egg-Plant colored skin, with green flesh. It has been found superior to any other Ground Cherry or Husk Tomato for preserving purposes and the flavor is sweet and delicious. The plants grow about 2 1/2 feet high, about the same in width, are heavy bearers of fruit in any ordinary garden soil. Try it this year.

Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

The Home Tomato

Photograph of One Plant Home Tomato Trimmed to Fit the Trellis. 360 Tomatoes on this Plant.

This is a very interesting tomato and you should grow it.

History of the Home Tomato—One plant was discovered in a hotbed this plant grew far ahead of all the others. It was quite distinct in its large foliage. It was set in a four-inch pot, and when only eight inches high blossomed, and when twelve inches high, these blossoms developed three shaped tomatoes. This plant was exhibited as a curiosity. It was transplanted to the ground and grew to cover an area of fourteen feet in diameter, with tomatoes. In order to keep pure, it was propagated from cuttings of the original plant. The picture shows one of these cuttings grown into a plant. This plant was pruned to fit the trellis, yet it produced 360 tomatoes. Therefore, it was named **Home Tomato**, on account of its earliness, delicious, nearly round, smooth shape, solid meat and productiveness. Just the tomato for a home garden, where it can be trellised when space is limited. I want customers to try this novelty.

Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

Garden Turnips and Rutabagas

Early Snowball or Six Weeks

This is one of the Best Extra Early Turnips in cultivation. The bulb is of medium size, white, smooth and of excellent flavor. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; $\frac{1}{4}$ lb., 35c.

Purple Top Strap Leaf

The bulb is very flat, of medium size and quite smooth, with a bright purple top; very fine grained. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; $\frac{1}{4}$ lb., 35c.

Early White Flat Dutch

This is another early variety which grows to a medium size very quickly. It has a clear white skin and is always choice for table use, and is one of the very best varieties for spring sowing. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; $\frac{1}{4}$ lb., 35c.

EXTRA EARLY MILAN—One of the earliest varieties grown. Bulbs are flat, of medium size, smooth, with a small purple top. Flesh is pure white; fine grained, hard, solid, and an excellent keeper. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; $\frac{1}{4}$ lb., 35c.

BREADSTONE—Is medium size, very quick growing, and roots are smooth, white with colored tops, flesh perfectly white, fine grained, cooks quickly. One of the best in cultivation for winter and spring use. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c.

GOLDEN BALL—Very early; fine quality and keeps well; excellent for table use or stock feeding. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; $\frac{1}{4}$ lb., 35c.

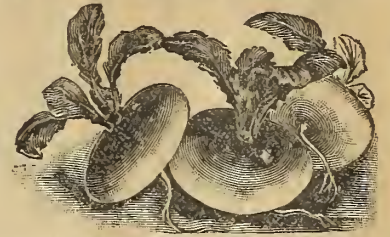

IMPROVED AMERICAN PURPLE TOP RUTABAGA—One of the best yellow fleshed varieties. Of fine quality, it keeps hard and brittle until summer and after "Heavy Cropping" is the largest yielder of them all. It is one of the best for table and stock feeding. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; $\frac{1}{4}$ lb., 35c.

HEAVY CROPPING RUTABAGA—This is a magnificent Rutabaga and one of the most profitable of Swede Turnips as well as the hardest, heaviest, best shape and most productive. The flesh is yellow, of the choicest quality, and bulbs always remain sound and good when flatter varieties will rot.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; $\frac{1}{4}$ lb., 35c.

SUPERB MIXTURE OF TURNIPS—This mixture contains all the leading varieties, both early and late, and by sowing this seed a continuous supply may be had throughout the season. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; $\frac{1}{4}$ lb., 35c.

Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; $\frac{1}{4}$ lb., 35c.

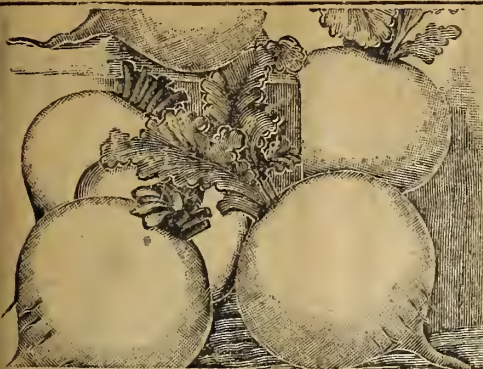

Purple Top Strap Leaf Turnip

Giant White Sweet Rutabaga

A very choice Rutabaga, growing to a good size, always solid, rich flavor, while the flesh is pure white. Just the Rutabaga to grow in the garden to get a big yield from a small plot of ground. I can recommend this as the very best White Rutabaga. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; $\frac{1}{4}$ lb., 35c.

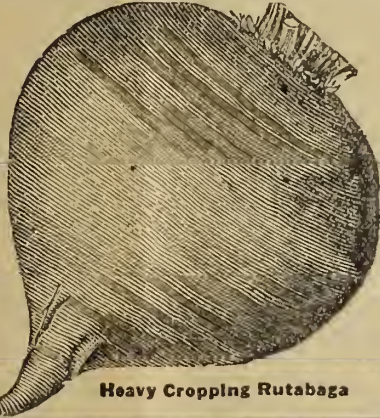

Early Snowball or Six Weeks Turnip

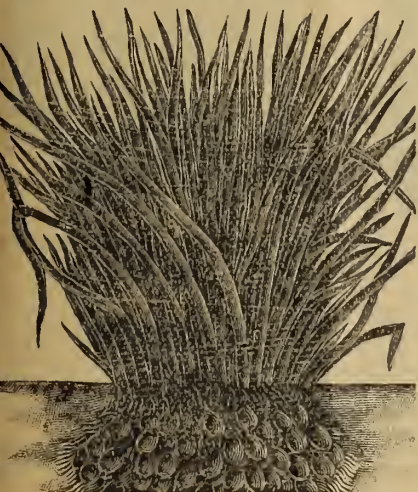

White Egg

A variety that produces egg-shaped roots, with thin, white skin, always solid, sweet and a good keeper. Excellent for early or late sowing. Very desirable for table use. One of my best. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 11c; $\frac{1}{4}$ lb., 35c.

Heavy Cropping Rutabaga

Ground Almonds

THE GROUND ALMOND, or Chufa, as some call it, has a fine flavor, resembling the Coconut or Almond.

The meat is snow-white, covered with a thin shell or skin of brown color. It grows close to the surface, is very prolific, a single nut yielding from 200 to 300 nuts in a hill and will do well in any kind of soil. If the nuts are planted in the spring, the same as potatoes, a big crop can be expected about potato harvest time. They grow so rapidly and produce such immense crops that you will be surprised when you see what is produced. Try a few in your garden this year. You will have a novelty to show to your neighbors. Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

Mr. J. H. Dolan, Scott County, Mo., writes:

I have experimented with all kinds of tomatoes. I enclose photo of your Giant Climbing. These vines are 11 feet tall, and still growing. It is a nice smooth tomato with an abundant crop.

Mills Mammoth Peanuts

Mills Mammoth Peanuts

MILLS MAMMOTH PEANUTS can be grown successfully in almost any place where corn succeeds. This variety contains earliness and large size, and is also very prolific and grows to an astounding size. They make compact bushes about 18 inches high. The giant nuts have a thick shell, quite heavily ribbed. Every part is useful; the vines as valuable feed for horses, cattle and sheep; producing from one to two tons of vines per acre, while the nuts contain a large per cent of rich nourishment. Try a few in your garden. Pkt., 10c; 3 pkts., 25c; 6 pkts., 40c.

Early Spanish Peanuts

This is a great Peanut, especially for the far North. It is very early, and if planted early in May will ripen the first of September. The pods do not grow as large as those of other varieties, but its extreme earliness makes it a very desirable sort to grow everywhere. Try a few in your garden. Pkt., 10c; 3 pkts., 25c; 6 pkts., 40c.

Early Spanish Peanuts

Champion Moss Curled Parsley

Produces crinkled and curled leaves, a choice selected strain. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; oz., 12c.

Two Pages Novelties For Trial

I offer several novelties this year I feel sure will please my customers. One of them a new creation, the Burbank tomato direct from Luther Burbank as shown on front cover. I believe every one is a good novelty, worth growing, and want them tested in all parts of the country this year. Give them a trial.

MILLS ENORMOUS PEA

Mills Enormous Pea

Mills Enormous Pea is certainly the giant of the pea family. There is nothing offered in this Seed Book more remarkable than this Giant Pea, when you consider that it will produce pods attaining the extraordinary length of 7 inches and upwards, closely packed with from 10 to 12 large dark green peas of fine flavor. The plants grow very vigorous from 5 to 6 feet in height and the giant pods are produced in great profusion, filled with enormous sized peas. Every customer will be delighted with this Giant Pea. A few plants growing in your garden will produce a great quantity of peas, and will be very interesting to show your neighbors. By giving the vines a little support you can get an enormous yield from little ground. Don't fail to try it.

Packet, 10c; 3 pkts., 25c; 6 pkts., 40c;
½ lb., 50c; 1 lb. 75c, postpaid.

Giant Butter Radish

An interesting novelty, a giant radish with small tops and bright, scarlet color, flesh crisp with zones of pink, very tender and a long keeper. This splendid radish is fine for forcing, for it does not become hollow or pithy. The flesh is crisp and high flavored, making it a novelty well worth trying.

Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

Bantam Evergreen Sweet Corn

This is claimed the greatest Sweet Corn yet introduced and one-third larger than Golden Bantam, and superior quality to that famous variety. It is a heavy yielder, very prolific and should be given a trial.

Pkt., 10c; 3 pkts., 25c; 6 pkts., 40c.

Giant Butter Radish

Grow Mills Enormous Pea this year—I have great reports from my customers who grew it last season, and you will be delighted with it. Think of it—great pods of 7 inches or more in length, filled with 10 to 12 mammoth peas of the very finest flavor.

If you do not want many seeds this year don't fail to order Enormous Pea, also the "Burbank Tomato" offered on front cover—two of my greatest novelties.

Brazilian or Stooling Flour Corn

This is claimed to be a great stooling corn, each kernel producing from 2 to 4 stalks with from 2 to 4 ears on each stalk, from 5 to 6 inches in circumference, and from 8 to 12 inches in length of pure white kernels. It is claimed this corn will yield nearly four times more corn to the acre than any common corn and makes a great variety for ensilage. It is also claimed to contain a larger percentage of starch than any other corn, and when ground by the same process as wheat gives as good flour as can be made from wheat. Plant two to three kernels in a hill but only allow one to grow, and cultivate the same as other corn. It produces an abundance of fodder and is valuable for ensilage. It does not require such rich ground as many other varieties of corn, therefore it is the best for poor soils.

These are the claims of the introducers and I think my customers will be highly pleased with it. I consider this one of the interesting novelties. Try it.

Pkt., 10c; 3 pkts., 25c; 6 pkts., 40c.

Egyptian Wheat Corn (From 1 seed)

Everbearing or New Zealand Spinach

It is claimed this Spinach is available for use during the hottest months of summer when ordinary Spinach is not to be had. It can be cut often and the tender foliage is quickly renewed. It grows well everywhere, sown in spring it is soon fit for use. There is nothing better for the family garden than this everbearing or New Zealand Spinach, it being the most healthy of vegetables for it contains a large percentage of iron, a most necessary tonic. It is claimed by the introducer that it is the only kind that will furnish a constant supply all through the season, and I advise my customers to try this wonderful strain for it means a great deal to be able to cut and use spinach all summer.

Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

Butter Ball Turnip

Butter Ball Turnip

A beautiful, perfect golden yellow turnip. Flesh very transparent, grows to about the size of a base ball and is very round and perfect. It is very early, producing turnips large enough to eat in 35 to 40 days, has a mild flavor and you should try it in your garden this year.

Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

American Wonder Pop Corn

Largest Pop Corn ever grown, see photo of sample ear. It is truly a wonder both for quality and yield.

Kernels are large and round and pops twice the size of other varieties. Pops readily and is of a delicious flavor. Such large, handsome ears and kernels will surely surprise you. Do not fail to try it.

Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

Lemon Cucumber

Quite a novelty, grows nearly round with green and yellow markings. Skin smooth, flesh tender and crisp. Fruits grow quite uniform in size, excellent for table use, very productive. You should grow a few hills in your garden this year.

Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

Egyptian Wheat Corn

This is quite an interesting novelty, was brought to this country from India. Is of stooling habit, producing 3 to 6 stalks from one seed loaded with large heads filled with round, plump, light colored seed. It makes excellent feed for chickens and for other stock, and will also pop like pop corn, and can be ground for flour. Will greatly outyield Kafir Corn, or any Cane or Sorghum plant. A little row of this corn in your garden or in any good soil will produce a great quantity of fodder and grain.

Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

Ear American Wonder Pop Corn
From Photograph

Grape Tomato

Grape Tomato

This is a real curiosity as well as being very valuable. It will trail on an arbor, veranda, trellis or fence and produce great clusters of fruit. The fruit is a handsome red color of a tomato flavor and is excellent for preserving and using in various ways. Very attractive for your garden or back yard.

Pkt., 6c; 3 pkts., 15c; 6 pkts., 25c.

MILLS CHOICE FLOWER SEEDS

Asters

I Offer the Greatest Collections of Colors you can find on the market

This Photo Shows Some of the Wonderful Flowers in Mills Gigantic Flowering Aster Mixture

Giant Branching Comet

Here is a novelty which originated in California and is sure to please everyone. The plants grow about 15 inches high and branch vigorously; often a plant measures 20 inches across. The stems are frequently 12 inches long and each plant produces from 25 to 30 blossoms. The flower is full, double measuring 3 to 5 inches, and is truest comet type.

All Colors, Mixed, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Earliest Blooming Aster

Earliest Blooming Aster

All those who want Asters very early in the season should grow this one, which is the earliest in cultivation; from three to four weeks earlier than any other Aster. Its large flowers, as well as its spreading habit of growth, make it a handsome plant.

All Colors, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Alyssum

LITTLE GEM—Grows 2 to 4 inches high and one plant will completely cover a circle 12 by 14 inches in diameter. Very fragrant, and the flowers are pure white.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

SWEET—This is pure white, much used for borders; is fragrant and produces very delicate flowers.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Ricinus (Castor Oil Bean)

ZANZIBARENSIS—This is of a handsome, quick growing Ricinus or Castor Oil Bean and if planted in the open ground in May should be in full foliage in July and attain a height of from 12 to 14 feet during the season. The gigantic leaves measure 2½ to 4 feet across.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Baby Golden Glow

This is a beautiful annual, producing a yellow flower, which makes a pleasing effect. They will begin blooming early in the season and each plant will produce hundreds of bright yellow flowers as double and perfect as roses. The Baby Golden Glow grows only from 20 inches to 2 feet in height and resembles the famous Golden Glow which is a tall growing, late flowering perennial plant.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Defiance Balsam Mixed

Defiance Balsam

This is without question the most attractive mixture of Balsam seed ever grown. It produces plants that are covered with very large, double flowers of all the colors imaginable. It will be a favorite wherever grown.

All Colors, Mixed, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Celosia (Coxcomb)

All Varieties Mixed—This will make a great collection, producing many curious plants and flowers.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Giant Larkspur

An improved type, producing large flowers, very double, of various colors, shades and markings, which are borne on long spikes like immense Hyacinths. Can be easily grown in the open ground. All Colors, Mixed, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Coleus

I offer a choice collection of colors, which includes all the large-leaved varieties. Seeds sown early will produce strong, vigorous plants. Mixed Colors, pkt., 8c; 3 pkts., 20c.

Baby Golden Glow

Giant Hyacinth Flowered Candytu

The flower heads grow nearly 6 inches long about 3 inches in diameter, and the color is white. The plants grow about 14 inches high bear from 4 to 6 of these immense flower heads on one upright stalk and each plant will send out 4 branches.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

All Colors Mixed—Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Mills Gigantic Flowering Aster Mixture

I have found that my customers desire a good collection of Mixed Asters, and for this reason have made up one which I consider cannot be equalled. It contains many different varieties, a variety made up of several separate colors, which will produce a gorgeous display of Asters impossible to describe. It is by far the greatest collection of Mixed Asters on the market, and a packet of seed will produce an abundance of flowers throughout the season. See photo of some of the Gigantic Flowers in this mixture. All Colors, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Giant Cosmos These Giant Flowering Cosmos often produce flowers 4 to 5 inches across. For cutting, this is one of the finest flowers grown, long stems and feathery foliage, produce a graceful effect. They are easily raised from seed.

ALL COLORS MIXED—This contains all the varieties, which make a great display of colors. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Giant Cosmos

Giant Early Flowering Carnations

AN EARLY FLOWERING STRAIN

This is a wonderful strain of early Flowering Dwarf Perpetual Carnation which will produce flowers in three or four months from seed. The plant is of dwarf compact habit, branching out just above the ground. The variety of colors includes blush, deep pink, white, salmon, maroon, dark crimson and many beautiful variegated flowers, a great many of which have beautiful fringed petals and are very fragrant. The plants grow easily anywhere. In about 12 weeks after the seed is sown they begin to bloom and an abundance of flowers will be produced until frost comes. Seed sown during the summer will produce plants which can be potted in the fall and will produce an abundance of bloom throughout the winter.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Mignonette

FINE MIXED—This comprises all known varieties. It is a very choice selection.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Ornamental Cotton

Giant Early Flowering Carnations

New Ornamental Cotton

This Cotton makes a very beautiful decorative plant when growing, and for cutting in the fall for house as everlastings, there is nothing better. Some leaves are green, white, yellow and red. The cotton is snow white. Grows easily from seed.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Calliopsis

These are half hardy annuals of quick growth, bearing a profusion of bright colored flowers of all colors. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Calliopsis

Canterbury Bells This is a popular, well known, large bell-shaped flower, known everywhere. They grow like pyramids, 2 feet high, and are often covered with one or two hundred flowers, white striped, lavender and pink, for weeks during the summer.

Finest Single, mixed, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Bellis (Double Daisy)—Daisies are easily grown from spring sown seed and come into bloom in a very short time. I offer a splendid mixture, including all the best varieties.

Mixed Colors, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Great Fountain Plant

The Fountain Plant, or "Amaranthus Salicifolius" is a very beautiful annual, peculiar in form and color. Finest of all decorative plants, bearing long, wavy racemes of curious drooping branches shaded with orange, bronze and crimson. They make beautiful drooping plants. Succeed anywhere. Seeds grow readily. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Great Fountain Plant

Brilliant Mixed Poppies

These Poppies grow 12 to 15 inches high, branch freely and bloom continuously for weeks. Flowers are immense, both in size and color. Their colors run through all shades and make a gorgeous sight all summer. All colors.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Snowdrift Poppy This is a large variety producing pure white flowers, perfectly round and double, of a large size and at a little distance a bed of them looks like a drift of snow, making a grand sight in summer.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Perennial Poppies

The single perennial Poppies are perfectly hardy and very attractive on account of the large handsome flowers. Colors, white, red, orange and yellow; flowers measure 6 to 9 inches across.

All colors, mixed, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Dusty Miller

One of the prettiest of ornamental leaved plants. The leaves are white and are beautiful for vases, edgings, ribbons or mixed with outflow.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Brilliant Mixed Poppies

Scarlet Banded Poppy A great curiosity. New species from Asia Minor. Blooms all summer producing flowers 2 to 2½ inches across, with a fiery dark orange scarlet band and with black spots at base. The branching plants grow about 16 inches high. Try it.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Foxglove (Digitalis)

Produces long spikes of richly colored flowers, excellent for cutting. A very showy plant. Blooms the first season.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Forget-Me-Not

ALPESTRIS BLUE—A grand free-flowering sort, and the very best variety. Will thrive in almost any soil.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Wallflowers FINE DOUBLE MIXED—Contains a large collection of shades and colors. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

CHOICE SINGLE MIXED—This includes all single varieties and a good variety of colors. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Everblooming Annual Hollyhock

They are as easily grown from seed as any annual and commence flowering in about 12 weeks and continue to bloom until killed by frost. Plants from early sown seed set out in May will commence blooming in July and will produce an abundance of bloom throughout the season. This Annual Hollyhock is a wonderful free flowering sort. They are produced in double flowers, semi-double, single, saucer-shaped flowers, some with smooth-edged petals, while others are fringed and of various shapes and shades. The flowers are usually very large, sometimes measuring over 5 inches across. The plants grow very strong and vigorous and are of a branching habit.

Price of seed containing a great mixture of double and semi-doubles, all colors and shades, per pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Four O'Clocks

Are very beautiful, with flowers of striking colors, which contrast finely with the dark green glossy foliage.

Best mixed, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Everblooming Annual Hollyhocks

Godetia (Satin Flower)

SATIN ROSE—This produces handsome, very large, showy flowers of a rich, velvety satin rose, the petals of which shine like satin. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

FINE MIXED COLORS—Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Kochia Scoparia (Summer Cypress)

Kochia Scoparia (Summer Cypress)

A beautiful plant, very unique and ornamental. The rounded globe-like form resembles a delicate evergreen highly colored. Nothing handsomer for an annual hedge. Early in fall ends of shoots are thickly set with small bright scarlet flowers. Plants are very showy. When planted in rows singly to show the round, ball-like form they are very striking. Easily grown from seed and can be planted in the ground early in spring. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Globe of Gold Sunflower

Globe of Gold Sunflower

A dwarf sunflower growing about 3 feet high. Branches freely, carrying medium-size, double, globe-shaped flowers of rich, deep golden yellow, hence its name, Globe of Gold. Easily grown. Handsome on lawns or in the garden. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Dianthus (Hardy Garden Pinks)

Dianthus HARDY GARDEN PINKS

These are the most beautiful of summer flowering annuals. They unrivaled for brilliancy and variety of colors. The plants are bushy symmetrical form, about a foot high. The flowers grow to a large averaging about 6 inches in circumference. There is a wonderful variety of colors and they are intensely brilliant and varied. Colors are beyond description.

DWARF SNOWBALL—These are pure white, producing an abundance of double flowers. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

DWARF FIREBALL—Produces double fiery red flowers throughout summer and fall. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

LARGE FLOWERING DOUBLE HYBRID—All colors. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

CHOICE SINGLE MIXED—All colors. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

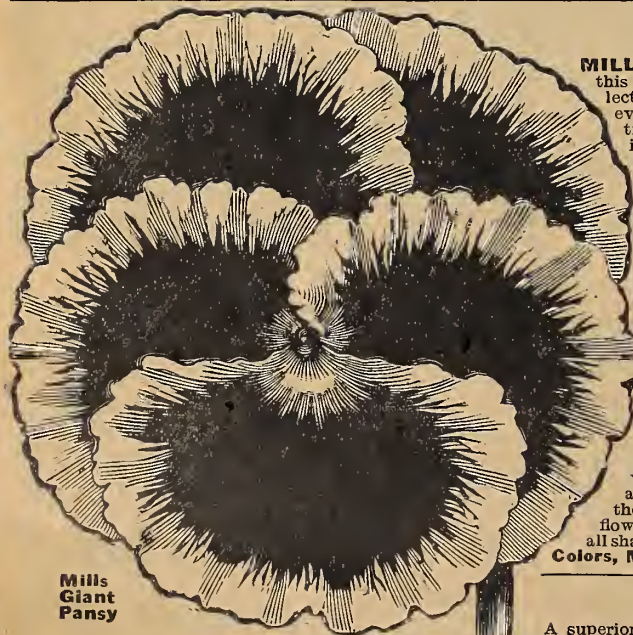

Pansies

MILLS GIANT—I believe this to be the best collection of **Giant Pansies** ever offered. The illustration gives a good idea of size of flowers and the rich and varied coloring. All who grow these Giant Pansies will have flowers that will surprise their neighbors. All Colors, Mixed, pkt., 10c; 3 pkts., 25c.

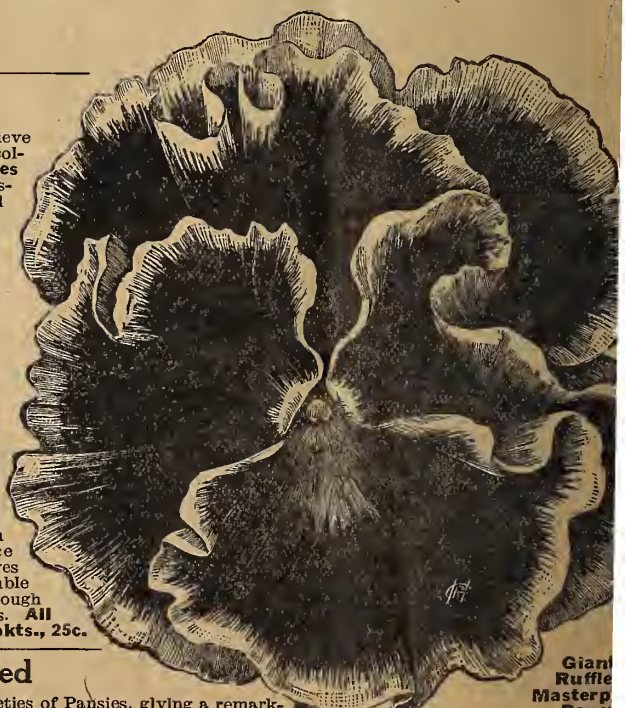

GIANT RUFFLED MASTERPIECE—A new type in Pansies, producing giant flowers of the most distinct and striking character. The petals have a rich velvety substance and being ruffled gives them the effect of a double flower. Colors range through all shades known in Pansies. All Colors, Mixed, pkt., 10c; 3 pkts., 25c.

Choice Mixed

A superior mixture of all varieties of Pansies, giving a remarkably fine display of colors. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Mills Giant Pansy

Giant Ruffled Masterpiece Pansy

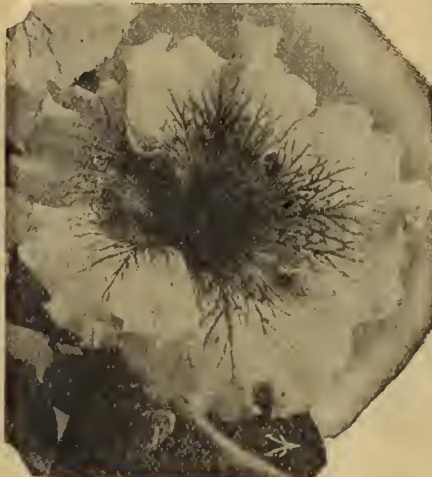

Mills Gorgeous Phlox

Petunias

EXTRA CHOICE MIXED—All best colors, single and double. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

STAR—Flowers 2 to 2½ inches in diameter, of fine texture with more or less veining. Ground color a crimson maroon; in the center of the flower is a five-rayed star of light bluish pink or white. Height of plant, 1½ to 2 feet. Free blooming, sometimes 100 flowers on a single plant, and one of the most attractive for bedding, window boxes or borders.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Extra Choice Mixed Petunia

Datura

SWEET NIGHTINGALE—

This is a very showy and delicate pot plant, producing immense large white trumpet-shaped flowers very quickly from seed, is fragrant and a very interesting flower.

Per pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Smilax Its wavy form renders it valuable for vases, or to hang and droop from baskets or trellises. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Ten Weeks Stocks **LARGE FLOWERING GLOBE PYRAMIDAL**—

This kind produces immense spikes of perfectly double flowers; individual blooms measuring from 2 to 2½ inches in diameter. Colors are crimson, white, rose, blue, lilac, brown, flesh color, apple blossom and yellow.

All Colors, Mixed, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

DWARF—Fine mixed. All colors, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Nicotiana, Sanderae Hybrids

Helichrysum (Everlasting) — A

collection of all the leading varieties of everlasting flowers. Very attractive, a bouquet will keep for years without watering and look as fresh as when first picked.

Everlasting

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Nicotiana

SANDERAE HYBRIDS—These flower from early summer until late in autumn. Their beauty is beyond description, flowers produced being purple, snow-white, dark and light red, violet, salmon, crimson, pink and various other shades. Thrives in any soil, either in pots, boxes, or in the open ground. Flowers are nearly as large as a Petunia, with tubes 5 inches long, and many of the flowers are delightfully scented. You should not miss this excellent plant as it is good for summer, fall or winter blooming. Cut flowers last well, opening freely in water.

All Colors, Mixed, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Snapdragon

This is a charming, old-fashioned flower produced in many colors, such as yellow, scarlet, white, etc. It is a perennial and blooms well the second season. It succeeds well as an annual.

All Colors, Mixed, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Mills Gorgeous Phlox

A bed of these Annual Phlox will surpass almost anything else in dazzling brilliancy. Plants grow about 18 inches high, produce large trusses of immense flowers of various colors, such as deep rose, soft pink, maroon, purple, lavender, dazzling scarlet, pure white and many other shades. Gorgeous Mixture cannot be equaled. All colors, mixed.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Marigold

TOM THUMB,

Mixed—These form compact little bushes, 6 to 8 inches high, covered with handsome blossoms from summer until fall. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

French Mixed Colors—These produce large double flowers of rich dark shades.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Chinese Woolflower

Chinese Woolflower

Plants grow 2 to 3 feet high, the bloom starting early with a central head, round and globular, which often reaches the immense size of 2 feet in circumference. Scores of branches are thrown out, each bearing a ball of scarlet wool. All these branches support numerous laterals with small heads of bloom mixed with fresh green foliage, so that a plant looks like an immense bouquet splendidly arranged and set in the ground. None of the blooms fade in any way until hit by frost; but all continue to expand and glow with a deepening richness of color, a dark crimson-scarlet.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Tufted or Bedding "Pansy-Violets"

These are very popular for bedding. They produce beautiful Pansy-like blossoms 2 to 2½ inches across, of the most brilliant colors, lemon, crimson, orange, maroon, purple, lavender, silver, gray, rose, blue, white, black and many other shades.

All Colors, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Mills Giant Verbenas

Mills Giant Verbenas

These Giant Verbenas produce the most beautiful flowers of gigantic size in a wider range of colors than any other Verbena. A few plants will make a display of colors long to be remembered. The clusters of showy and fragrant flowers are borne in great profusion from June until frost. They are easily raised from seed. Try them.

All colors. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Japanese Morning Glory

Japanese Morning Glory The flowers are of gigantic size and the colorings and markings are beyond description, ranging from snow-white to black-purple with all the possible intermediate shades, such as pink, fiery red, rose, copper, red carmine, crimson deep blue, pale blue, royal purple, maroon, indigo, bronze, slate, brown and cherry, while many have throats spotted, marbled, striped, flaked and splashed. The most attractive **Morning Glory**. All colors, single and double. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Sweet William Excellent for edging or for borders, producing large heads of the richest flowers early in the summer. Very fragrant, excellent for bouquets. Single mixed, all colors. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

DOUBLE MIXED—Produces double flowers, all colors. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Royal Beauty Portulaca

This is a grand variety. The flowers are large, while the colors are very brilliant, of red, orange, white, maroon, yellow, and various other shades, impossible to describe. A bed of these double Portulacas makes a magnificent sight.

All colors, mixed, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Cobea (Scandens)

A rapid growing climber, attaining a height of 15 to 30 feet, produces rich purple flowers. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Royal Beauty Portulaca

Wild Cucumber Vine

One of the quickest growing climbers.

Grows 30 feet in one season, is thickly dotted with pretty white fragrant flowers, followed by an abundance of ornamental, prickly seed pods. To cover unsightly buildings and fences nothing can equal it.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Japanese Giant Flowering Dolichos (Hyalanth Bean)

Annual climber grows about 10 feet high, branching out well from the bottom producing an abundance of sweet pea-like blossoms, borne in long wistaria-like clusters, nearly a foot in length. The foliage is very dense and is insect proof.

Mixed colors, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Japanese Hop Vine

Handsome vine, growing from 20 to 30 feet in a season. Leaves striped and variegated, making a charming effect. One of the best plants for covering verandas, trellises, etc. Heat, drouth and insects do not trouble it. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Wild Cucumber Vine

ZINNIAS

Giant Mammoth Mixed

This is a new class of Zinnias, giant in size, and has perfect double flowers of the richest and most varied colors and shapes, measuring nearly 5 inches across, of intense brilliant colors. The plants grow about 3 feet high and bloom freely. All colors, mixed, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Fairy Zinnias Covered during the summer and until frosts sets in, with very small, perfectly double flowers, embracing a wide range of colors. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Striped Zebra Produces all colors, such as orange, pink, yellow, crimson, violet, scarlet, white rose, and many are striped with different shades. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

New Pompone Color, pure white through cream and buff to clear cream yellow, and pinks to deepest crimson and fiery coppers and reds. All colors. Mixed, pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Japanese Kudzu Vine

(Jack and the Bean Stalk Vine) This comes from Japan. With ordinary treatment it will grow 40 to 50 feet in one season, from well established roots, filling the air with fragrance of its large clusters of wistaria-like blossoms. It requires little care. It is perfectly hardy, lasts for years. Foliage is large, shaped like the leaf of a bean. Flowers are a pleasing shade of purple. Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c.

Giant Mammoth Mixed Zinnias

Wild Flower Garden Mixture I have made great mixture flower seeds, including nearly all flowers that will grow and flower the seed first year. This selection embraces several hundred var of easy growing and pretty flowers suitable for a wild flower garden. They are excellent to sow in any corner of the garden or along a fence or any unsightly places where they will grow and bloom freely. Pkt., 5c; 3 pkts., 10c; 6 pkts., 18c; 1/2 oz., 30c.

Japanese Kudzu Vine

Sweet Peas and Giant Nasturtiums

Earliest of All Sweet Peas

Giant Flowering Gorgeous Mixture Sweet Peas

Greatest mixture of colors ever offered. If there is only one flower you select from my Seed Book, let it be this selection of Sweet Peas. It includes all the best of the Spencers. They begin to bloom early and continue to bloom for months. Sow a liberal quantity of seed.

**Pkt., 5c; 3 pkts., 12c;
6 pkts., 20c; oz., 25c.**

Earliest Of All Sweet Peas

This is the very earliest, always coming into bloom nearly two weeks in advance of any other variety. It is so early that two crops of flowers may be grown in one season by simply planting early in the spring and those that go to seed, if sown in August, will produce flowers in the fall. Try them.

**Pkt., 5c; 3 pkts., 12c;
6 pkts., 20c.**

Spencer Hybrid or Giant Orchid Flowered, Mixed Sweet Peas

This is the Sweet Pea that is very popular. The illustration gives but a little idea of its mammoth size and a very faint idea of the shape. The enormous flowers are waved to a remarkable degree, giving them the well-deserved title of **Giant Orchid-Flowered** beyond comparison with all other varieties. The harmony of soft coloring in this mixture is beyond the power of words to describe. This mixture contains shades of white, crimson, lavender, bluish, etc., often many shades of the same color. You should grow them this year.

**Pkt., 5c; 3 pkts., 12c;
6 pkts., 20c; oz., 25c.**

Giant Nasturtiums

I offer a choice selection of **Giant Nasturtiums**, both Dwarf and Climbing, of a wonderful collection of colors.

GIANT CLIMBING

—This is the King of all Giant nasturtiums. It is as beautiful as an Orchid on account of the giant flowers. Plants grow very strong and vigorous with large, dark green foliage, producing great quantities of flowers of all colors, some measuring over 3½ inches across. Just the variety to plant by an arbor or fence to make a wonderful display of colors.

**All colors, pkt., 5c; 3 pkts., 12c; 6 pkts., 18c;
oz., 20c.**

Giant Flowering Gorgeous Mixture Sweet Peas

Spencer Hybrid or Giant Orchid Flowered Sweet Peas

Mills Giant Nasturtiums

DWARF BRILLIANT BEAUTIES—These Nasturtiums are so easy to grow that any child can plant and care for them. The plants make a symmetric bush about a foot high and one foot across of round formation, the foliage being a very attractive emerald green in color, making it very charming and unique. They produce a wonderful display of flowers of enormous size of all colors to be found in nasturtiums, which literally cover the plants with their showy bloom.

All colors, pkt., 5c; 3 pkts., 12c; 6 pkts., 18c; oz., 20c.

MILLS

Extra Early Blood Turnip Beet

the best of them all

Mills Extra Early Blood Turnip Beet

This is a selected strain that attracts attention everywhere on account of uniform size and handsome appearance. It is very early, the color being a rich dark red, as shown in color plate. The top is small and the beet fine grained; grows smooth and just the right size for home use. This is just the beet for home gardens and does well in any part of the country. It is a wonderful keeper and highly prized by all who have grown it. Try it this year.

Pkt., 5c; 3 pkts., 12c; 6 pkts., 20c; oz., 15c; $\frac{1}{2}$ lb., 50c.

MILLS

Giant Pumpkin

the giant of the
pumpkin
family

Mills Giant Pumpkin

This is a prize-winning variety growing to enormous size. But few have an idea of the **Giant** size these pumpkins attain. The flesh is bright yellow, fine grained and of good quality. Notwithstanding the large size of the pumpkin, it is excellent for pies. I have raised specimens weighing over 200 pounds and it is nothing uncommon for my customers who have grown this variety to show specimens weighing over 100 pounds. There is nothing offered that will create a greater interest than this **Giant Pumpkin**. It is an excellent pumpkin to plant for show purposes on account of its attaining such enormous weight.

Pkt., 6c; 3 pkts., 15c;
6 pkts., 25c; oz., 30c.
